GOWDY WINS.

Knocks Out Nebeker in the Fight

For the Chairmanship of the State Committee.

Nebeker Withdraws Before the Ballot is Taken and Gowdy Captures the Prize.

INDIANAPOLIS, Ind., Jan. 27.—There was an influx of prominent politicians here yesterday and last night from all the outlying districts, and the fight for the republican chairmanship between E H. Nebeker and John K. Gowdy was waged with renewed vigor, there being arrayed against the latter the whole power of the Harrison machine, which was formed two months ago by E. H. Nebeker, ex-United States tressurer; W. D. Owens, ex-commissioner of immigration; Captain Hart, ex-auditor of the treasury, and a number of postmasters and others who found employment under Harrison from 1888 to 1892

Of the thirteen committeemen, five are openly for Gowdy, four for Nebeker and four claim to be unpledged, but at least three of the latter were pledged to Gowdy before they were selected by the district conventions, and it is regarded as significant of the methods which the machine has invoked that they have now come up to the meeting of the committee saying that they will do that which is best for the party.

It is no secret that pledges of positions under the expected republican administration are being offered for votes for Nebeker, and upon these methods his election depends.

NEBEKER WITHDRAWS.

INDIANAPOLIS, Ind., Jan. 28.—The only name that will be presented to the republican state central committee when it meets at 2 o'clock this afternoon to elect a chairman, will be that of John K. Gowdy, of Rushville, who will be re-elected. The long and bitter contest was ended this morning by E. H. Nebeker, the other candidate, who authorized the announcement that his name would not be placed in nomination. This means that Russell Seeds, who has been secretary, will be succeeded by some other man.

TURPIE'S SENTIMENTS.

Turkish Government Should be Destroyed.

"Our Message to the Sultan Should be Followed by a Shot Through the Grand Seraglio."

WASHINGTON, Jan. 28.—Senator Turpie, of Indiana, in presenting a petition concerning Turkish massacres, said in the recent calamities the Armenians were charged with no revolt. They were charged only with being Christians. Their only crime was that they claimed and exercised the right to worship the Divine Creator of the universe. The time has come, said the senator, when there should be an official notification to Turkey and to the Mohammedan church that there has been a decadence in their power to proselyte with the sword. "We have already sent a message," said the senator, referring to the concurrent resolution, but the blow should follow. The message should be followed by a shot which would go crashing through the grand seraglio."

The senator urged that it would be a glorious day when the destruction of this Turkish power was brought about. He would have the messages and demands sent not only to the sultan, but echoed through the mosques and minarets. It should thunder until these murderers learned the power and advance of Christianity. The senator urged that the Christian world might now be called upon to take up another great crusade, driving back the rule of Mohammedanism and establishing the rule of Christianity. Mr. Turpie spoke with great earnestness and vigor, and his remarks attracted much attention.

MILITARY PARK.

The Vicksburg Battlefield Will be Beautified.

WASHINGTON, Jan. 28—The house committee on military affairs decided today to recommend the creation of a national military park on the Vicksburg battlefield and will report to the house the bill introduced by Mr Catchings. The park contemplated will embrace 1,200 acres where the opposing armies were lined at the siege of Vicksburg. The bill provides for a commission of three to outline the site, to be appointed by the secretary of war, and a secretary and historian. The cost of the land is limited to $50,000, but the entire expense of the park, if the project is carried out, will be half a million.

Fear an Insurrection.

CONSTANTINOPLE, Jan. 28—The government has taken $600,000 from the official pension fund with which to meet urgent state requirements. The Mauser rifles are to be given to the troops as soon as possible. It is believed this step is due to the fear that an insurrectionary movement in Macedonia is impending.

Jacobs Sues for Damages.

CRAWFORDSVILLE Ind., Jan. 28—Simpson and W. B. Montgomery caused the arrest of William Jacobs on the charge of forgery recently and he was in jail fifteen hours Now he sues for damages of $1,000 an hour on account of law practice lost while he was behind the bars.

CALL'S SARCASM.

"Regular Committees the Sepulchers of Legislation."

The Resolution for the Investigation of the Arrest of Debs Leads to a Lively Debate.

WASHINGTON, Jan. 28—Mr. Call's resolution for an investigation of the arrest of Eugene V. Debs came up in the senate this morning and Mr. Call urged immediate action, saying that the laboring interests of the country desired the inquiry. Mr. Hill said that ordinarily he had great respect for the laboring people of the country, but he pointed out that no petitions had come from the representatives of these people; he had never heard that they desired this investigation. It might be that such an inquiry was desirable, but if so, it should be conducted by one of the regularly constituted committees, and not by a special committee. To that end Mr. Hill offered an amendment, directing that the whole subject of contempt of court, as enforced by the federal judiciary be investigated by the committee on judiciary and that a report be made as to what, if any, legislation was necessary. Mr. Call dissented to the amendment. "Why is it intended to suppress this inquiry?" he asked. These regular committees were the sepulchers of legislation. If action was to be taken a special committee was the only means of accomplishing it. Mr. Call spoke vigorously upon the indignities and wrongs against Eugene V. Debs because he had ventured to express opinions contrary to those entertained by a court. The senator said this inquiry was vital to the preservation of civil liberty and the inviolability of the personal rights of the individual.

SHOCKING AFFAIR.

A Farmer Commits Suicide in a Horrible Manner.

Climbed Upon a Straw Stack, Sets It on Fire and Then Sends a Bullet in His Brain.

NEW CASTLE, Ind., Jan. 28—Last evening John P. Morris committed suicide in an unusual and horrifying manner. He lived on a farm near this city and had been addicted to the use of intoxicants for many years, but had lately reformed. This morning he took a revolver and climbed to the top of his straw stack, near his house. He first set fire to the straw and as the flames crept around him he deliberately placed the revolver to one eye and pulled the trigger, sending a bullet into his brain. He fell down in the burning straw, but members of the family rushed to the scene and dragged him out. He was still alive two hours after the shooting, but cannot survive. It is not known what induced him to commit the deed, but it is supposed his despondency over his ill success in attempting to reform caused him to do it. He leaves a wife and several children.

DOUBLE KILLING.

Two Farmers Quarrel About a Piece of Land.

They Fight With Fists, Then Guns and Both Die Within an Hour of the Duel.

FORT WORTH, Texas, Jan. 28.—News reached this city today of a double killing at Shofters lake, Andrews county. Crick Atmore and Wils Mason quarreled over a section of school land both wanted and came to blows, after which both went home, got Winchesters and went on a hunt for each other. They met on the bank of Shofters lake, simultaneously fired and both shots took effect. Atmore was shot in the head, dying instantly, and Mason was shot in the body, dying in less than an hour.

DR. BROWN'S CASE.

The Investigating Committee Refuses to Act.

SAN FRANCISCO, Jan. 28—The committee appointed to consider the charges of immorality against Rev. Dr. C. O. Brown, pastor of the First Congregational church, in this city, has refused to act on the ground that it has no power. It was announced that at the conclusion of the trial of Mrs. Mary Davidson, who was arrested at the instance of Dr. Brown on a charge of blackmail, the charges against the minister would be heard by a competent tribunal of the church.

A BAD NEGRO

Creates Consternation on a Train.

Shoots Into a Crowded Coach.

Kills One Man and Wounds Three Others.

The Brute Overpowered by the Train Crew and Later Hanged by Judge Lynch.

BLUEFIELD, W. Va., Jan. 28.—Alexander Jones, a negro desperado, boarded a passenger train at Keystone last night. He was under the influence of whiskey, very boisterous and quarrelsome. Conductor McCullough came through the cars and after demanding fare from Jones advised him to be quiet. The negro became much incensed and when an attempt was made to eject him he pulled two revolvers from a belt and began firing promiscuously through the train, which was crowded with passengers. He emptied both revolvers and attempted to reload, but was overpowered by trainmen.

When the smoke had cleared away and the excitement had abated it was discovered that W. H. Strother, postmaster at Elkhorn, was shot through the abdomen. The wound resulted in almost instant death.

Conductor McCullough was shot in the side, but not seriously injured, and Peter Rice, a colored miner, was shot through the right breast and probably fatally injured. Jones was incarcerated in the Elkhorn jail to await the arriva of a train which was to convey him to Huntington for safe keeping. The train arrived at 2 a. m. and the officers and prisoner boarded it without molestation. Meanwhile a mob had been organized at Welch, fifteen miles west of Keystone, and had marched to Hemphill, a small station one mile west of Welch. The train was flagged by a danger signal and the mob, numbering 100 men, boarded it and at the point of Winchesters, forced the officers to release the prisoner.

They dragged Jones a short distance to a tree, where he was swung to a limb and his body riddled with bullets, the following note being attached: "This deed was done for the purpose of example and warning to negroes. So beware!" Some of the most prominent and influential citizens of this section composed the mob. Jones, it is alleged, had killed three men prior to his last offense. Excitement is at a high pitch. An effort was made by Jones' friends to rescue him from the angry mob, but proved to be futile. W. H. Strother was one of the best known men in this section and had numerous friends. He had just succeeded Paul Fletcher, who was killed a short time ago, as postmaster at Elkhorn.

CREATED A SENSATION.

The Testimony of An Old Soldier in Court.

To Get an Insurance of $5,000. a Woman Offers $500 for the Killing of Her Husband.

WICHITA, Kas., Jan. 28—In the trial of F. M. Williamson, charged with murdering Henry H. Leonard to secure the latter's life insurance, Michael Jordan, an old soldier, took the stand and created a sensation.

He swore that Williamson approached him last October, a month before the crime was committed, and suggested that he knew where $500 could easily be made. Williamson told him that he knew of a woman who held a $5,000 insurance policy on the life of Leonard and that she would give $500 of the insurance to any one who would kill him. Williamson then told Jordan all the details of the murderous scheme, and Jordan repeated them in court.

The theory of the state has always been that Williamson consented to a divorce from his wife that she might marry Leonard and under agreement that they would kill Leonard to get the insurance on his life.

VENEZUELAN WOMEN

Establish a Boycott on English Goods.

NEW YORK, Jan. 28.—A dispatch from Caracas, Venezuela, says: Many women here have organized for the protection of Venezuelan interests as against European agression. They announce that they have established a boycott against English goods. The agents of the railroad built by German capitalists say that no abrupt demand has been made by their government in their behalf. They add that the affair has been pending for several months, and that daily conferences have been held with officials of the Venezuelan administration. This was acquiesced in by the German agents in the hope that the matter would be promptly settled.

THEY WANT TO VOTE.

Delegation of Ladies Before the Senate Committee.

Ask for Equal Participation With Men in Shaping Legislation and Political Rights.

WASHINGTON, Jan. 28.—The senate marble room was completely filled today by a delegation of ladies from the National Equal Suffrage association, who appeared before the senate committee on woman's suffrage to present their plea for recognition at the ballot box. Senators Call and Peffer were the only members of the committee present and they were late in arriving. The ladies were all present at 10 o'clock, the hour specified for the meeting. The speakers were presented by Dr. Annie Shaw. They represented the states as follows:

Connecticut, Mrs. Elizabeth D. Bacon; Delaware, Mary E. Milligan; District of Columbia, Mrs. Eilen P. Thompson; Illinois, Mrs. Frank Hutchbard; Kentucky, Sally C. Bennett; Maryland, Caroline H. Miller; Massachusetts, Salvinia H. Hatch; Michigan, May S. Knaggs; Minnesota, Julia B. Nelson; Missouri, Mrs. Conkling Whittier; New Jersey, Dr. Mary Hussey; New York, Mariana W. Chapman; North Carolina, Helen A. Lewis; Oklahoma, Mrs. R. W. Southard; Pennsylvania, Mrs. Blankenburg; Rhode Island, Mrs. Mary Arnold; South Carolina, Virginia D. Young; Vermont, Mary N. Chase; Virginia, Orra Langhorne.

None of the speeches were of more than five minutes duration. The speakers all dwelt upon the right of the female sex to equal participation with men in shaping legislation and almost all of them referred to the injustice of taxing women without allowing them to vote.

Mrs. Thompson, of the District of Columbia, declared that there were 25 per cent. more of educated girls than of educated boys.

Mrs. Hubbard indirectly rasped the committee by declaring that the ladies had shown two of the virtues of statesmanship today, those of punctuality and patience, the reference being to the tardiness or absence of members of the committee.

The delegation also visited the judiciary committee room of the house and made speeches to the committee. The speakers were introduced by Susan B. Anthony and among those who spoke were Henry B. Blackwell, of Boston; Mrs. Saunders, wife of ex-Senator Saunders, of Montana; Elizabeth Yates, of Maine; Dr. Cora S. Eaton, of North Dakota; Mrs. Clara Colby, of the Woman's Tribune; Mrs. Francis A. Williams, a Nevada ranch and mine owner, and Mrs. Caroline M. Eberhard, of Ohio.

On the Island of Java—Amount to $3,000,000.

TACOMA, Wash., Jan. 28—Latest advices from China tell of the uttering by Chinese forgers on the island of Java, of $3,000,000 of Java bank notes. In order to get notes accepted forged notary acceptances were placed on them. Already six hundred thousand pounds of forged and discounted notes have been discovered, and many prominent Chinese merchants have been placed under arrest, including Captain Chin, one of the wealthiest Chinamen in Java. It is believed by the police that the forgeries were completed in Singapore. Kewe Chee Soe, a native of China, now a resident of Sourabaya, and a band of native etchers have been arrested. Soe has confessed to having committed the forgeries, and implicates many others, all of whom insist they are innocent.

AMISH ON TRIAL

For Unlawfully Solemnizing Marriages at Decatur.

DECATUR, Ind., Jan. 28.—The case against the Amish church members was called for trial in the circuit court here yesterday. Three cases were tried, two against Jacob Swartz on a charge of solemnizing marriages of first cousins and marrying without a license, and against David Swartz for unlawfully solemnizing marriages. They were tried before Judge Heller, who will not render a decision for several days. The court experienced great trouble with witnesses, as they refused either to be sworn or affirm. They said they would violate man's laws if they were contrary to Christ's laws. The other twelve cases will be tried by a jury and will last about three weeks.

DESPERATE FIGHT.

Two Men are Dead and Two are Wounded.

JEFFERSON, Cal., Jan. 28—As a result of a desperate fight yesterday two men are dead, two desperately wounded and a young lady seriously hurt. The killed are John Brown, jr., and John Fleck. The injured are John Brown, sr., George Fleck, shot through the back; Miss Tillie Brown, beat with a club. The trouble started over an old feud. The Flecks attacked the Browns and a general fight with guns and clubs followed. The Browns and Flecks are prominent farmers.

SWINDLERS ARRESTED.

Their Victims Rich Miners of Denver and St. Louis.

KANSAS CITY, Mo., Jan. 28—Two impecunious young men, said to be from New England, and giving the names of Mason M. Totten and C. T. Holliday, have been arrested here by postoffice inspectors from Denver and St. Louis. They are accused of having used the United States mails in swindling several mining stock brokers of Denver. Their plan, operating from Kansas City, was to send urgent requests by mail for certain mining stocks, enclosing checks on Kansas City banks covering the market value of the shares asked for. Neither of the men had a cent in bank here.

MYSTERIOUS CASE.

A Woman on Erie Street Drinks Carbolic Acid.

Whether or Not She Attempted Suicide is Not Known, But Circumstances Look That Way.

Last evening a couple of well known east end gentlemen were walking east on Washington street, when at the corner of Comparet and Washington streets they were accosted by a man who was considerably excited. The man inquired almost breathlessly for the nearest doctor and the gentlemen directed him to Dr. Harrod. The inquirer said he was a stranger and knew nothing about where anyone lived in that part of the city, but he started off hurriedly toward Dr. Harrod's house after he had explained a little further. He said a woman had drank carbolic acid and was in a bad condition. A doctor would have to get to her in a hurry. Whether it was with suicidal intent that the woman drank the acid, he did not say.

THE SENTINEL reporter asked Dr. Harrod this morning about the case, but the doctor refused to say anything about it. He said he did not know the woman's name; he did not know why she took the acid; he could not say whether she lived on Erie street or not, and he knew nothing about the case. He said, however, that she was getting along all right when he left her.

Whether or not it was a case of attempted suicide THE SENTINEL has been unable to learn, but the circumstances surrounding the mysterious occurrence would tend to show that it was. It is known that the woman lives on Erie street, but what caused her to drink the acid could not be ascertained.

DEADLY GLANDERS

Found Among Horses Near This City.

Four Killed by the State Veterinarian on Monday.

Startling Discovery Made by Dr. W. F. Myers—Forty Horses Examined and Many Quarantined.

Four horses who were afflicted with genuine cases of glanders were killed by the state health officers yesterday near this city.

The horses were owned by a farmer named Wolf, who lives on his farm, six miles from this city on the Illinois road. A few days ago Dr. W. F. Myers was called to the Wolf farm to examine some horses that were sick. As soon as he saw them he pronounced the disease glanders, one of the most dangerous and contagious of all the diseases which horses are subject to. He immediately notified the state veterinarian of the fact and the latter came to this city yesterday for the purpose of investigating thoroughly.

The state veterinarian and Dr. Myers, together with Fred Myers, the Washington street liveryman, went to the farm. The state official at once called the disease glanders and ordered the four afflicted horses killed. The horses were good farm horses. Mr. Wolf owned seven head of horses, so that when the four had been killed he was left with but three. And it is possible that these three may also have to be killed, as they were with the sick horses and are likely to have contracted the disease, although it has not yet developed in them. They were quarantined and the veterinarians will watch for developments.

About forty head of horses in that same neighborhood were examined by the doctors yesterday. They found no further traces of the disease, but they quarantined some horses that had been with those afflicted in order to prevent, if possible, any spread. Glanders was found in a couple of horses not far from the Wolf farm a year or so ago and the horses were killed. Since that time nothing more was seen of the disease until a few days ago.

The farmers in the entire neighborhood are excited over the discovery of the malady in their midst and they are taking every possible precaution to keep their animals free from the trouble. If any further cases develop they will show themselves within a very few days.

THE CITY HALL.

News and Notes From Courts and Offices.

Police Court—Horse Taken Up—Garbage Bids Opened—An Old Man's Queer Actions.

The only cases in police court this morning were a couple of plain, unornamented drunks. They were John Smith and James Crabb. Both went to jail.

OLD MAN'S STRANGE ACTIONS.

Frederick Weber, who for some time has been making his home with his daughter, Mrs. John Carl, on the corner of Calhoun and Chestnut streets, was taken to the police station this morning by Officer Flickinger. Weber is an old man, being past eighty-three. For a long time he has acted queer, and the folks are positive that his mind has failed him. They could not bear his peculiarities any longer, and they will have a commission of lunacy appointed to decide as to his mental condition. The old man was taken to the county jail. He is also the father of Milton Weber.

TOOK UP A HORSE.

Officer Harkenrider took up a horse and buggy that was found alone on Main street last night. The outfit was taken to the livery stable at No. 55 East Main street and the officers are trying to find out who it belongs to.

HAS GRIPPE.

For two or three days Deputy Comptroller John Evans has had a cold that made him feel like a cold storage warehouse. He tried to fight it off, but it got the best of him and today he was down sick. He was confined to his home, and feeling about as bad as a case of grippe generally makes a man feel.

NEARLY ASPHYXIATED.

Two Families Have Narrow Escapes From Death.

Mr. and Mrs. Christian Lochrman and Daughter, and H. L. Bates and Family the Sufferers.

Mr. and Mrs. Christian Lochrman and their daughter, aged fourteen years, narrowly escaped death from asphyxiation this morning. The gas from a coal stove escaped and filled their bed rooms early this morning, while they were still in bed, and when Mr. Lochrman's son found them they were unconscious from its effects. He at once called Dr. H. V. Sweringen, who restored his patients to consciousness and at noon, when THE SENTINEL heard from them, they were out of danger.

ANOTHER CASE.

The family of H. L. Bates, of No. 129 West Third street, were nearly asphyxiated by the fumes of burned gas yesterday morning. The fire being filled with soot if did not allow the burned gas to escape. Mr. Bates, not being as badly affected as his wife and baby, with great difficulty restored them to consciousness, when Dr. Stults was called in and prescribed for the family. All are getting along nicely.

DESIGNS ASKED

For the New Covered Police Patrol Wagon.

Board of Public Safety Will Utilize the Best Ideas Submitted by Fort Wayne Manufacturers.

The board of public safety will at the meeting tomorrow evening receive and examine the plans submitted by the several Fort Wayne wagon manufacturers for the new covered patrol wagon, which it is proposed to purchase for the use of the police department. All the wagon makers in the city have been asked to submit the best plans they can conceive and from all these the board will select whatever the members think are the best ideas. It may be that no one complete plan submitted will be adopted, but it is more likely that the board will cull out the best ideas contained in all and use them in making a design for the wagon themselves. Mr. Rossington, of the board, spent yesterday afternoon calling upon the various wagon makers and asking them to submit their designs to the board at Wednesday night's meeting. The board will not ask for bids from outside firms, preferring to have the wagon built in this city by a home manufacturer.

The Studebaker Wagon company, of South Bend, heard that the city intended buying an ambulance, and they sent a number of photographs of ambulances of their manufacture, but the board wants a patrol wagon instead of an ambulance.

It is expected by the board that the wagon will not cost over $400. It may be considerably less. It will weigh but little if any more than the open wagon now in use by the department. The cover will be made of duck cloth or some similar material equally as strong and durable.

The board intends to award the contract for the building of the wagon just as soon as the proper design is decided upon.

TO INVESTIGATE.

A Committee Will Visit Electric Roads at Other Cities.

The citizens' committee which is considering the Fort Wayne and Hicksville electric railroad scheme had a meeting last night. Among other things talked over was the idea of sending a committee to other cities to gather information in regard to the operation of suburban roads. It was finally agreed to send out such a committee and Hon. Charles McCulloch and ex-Mayor Muhler were appointed to take the trip.

These gentlemen leave tomorrow morning and they will visit Detroit and Toledo. They will investigate the manner of building suburban roads, how they are operated, the profits, etc. When they return and make a report the citizens' committee will no doubt base its decision upon what they say.

THE SURGEON'S KNIFE.

Once Believed to Be the Only Cure for Piles and Rectal Diseases.

A Better Way Now Discovered, Which Cures Every Form of Piles Without Pain or Inconvenience.

Many people suffer the pain, annoyance and often serious results from piles for years, and after trying the many lotions, salves, ointments and so called cures without cure or relief, give up the hope of a final cure, rather than submit to the intense pain and danger to life which a surgical operation involves.

Happily all this suffering is no longer necessary, since the discovery of the Pyramid Pile Cure; a remedy which is approved by the medical profession, as being absolutely safe, free from any trace of opiates, narcotic or mineral poisons and which may be depended upon as a certain cure (not merely relief) in any form of Piles, whether itching, blind, bleeding or protruding. Some of the hundreds of cures recently made are little short of marvelous, as a perusal of the following will demonstrate.

Major Dean, of Columbus, Ohio, says: I wish to add to the number of certificates as to the benefit derived from the Pyramid Pile Cure. I suffered from Piles for forty years and from Itching Piles for twenty years, and two boxes of the Pyramid Pile Cure has effectually cured me.

Dr. J. W. Megan, Leonardville, Kan., writes: I have used a box of Pyramid Pile Cure and received more benefit and relief than from any remedy I had used in the past twenty-two years.

James Jemerson, Dubuque, Iowa, says: I suffered from Piles for six years; have just used the Pyramid Pile Cure and am a well man.

Mrs. M. C. Hinkly, 601 Mississippi St., Indianapolis, Ind., says: Have been a sufferer from the pain and annoyance of Piles for fifteen years, the Pyramid Pile Cure and Pyramid Pills gave me immediate relief and in a short time a complete cure.

The Pyramid Pile Cure may be found at druggists at 50 cts. and $1.00 per package. A book on cause and cure of Piles will be sent by mail, by addressing the Pyramid Drug Co., Albion, Mich.

GOVERNOR PATTISON, of Pennsylvania, is looming up as a presidential candidate. If it isn't Matthews, Pattison would be all right.

MAYORALTY candidates will develop rapidly enough as soon as it is known whether we are to have a primary election or a delegate convention.

THE congressional candidates will get a hustle on themselves now that an early convention has been decided on by the district committee.

AND NOW the free silver people are talking of a party of their own. They would catch some of the members of both the republican and democratic parties.

THE SENTINEL has made arrangements to publish the remarkable story of Mrs. Henry Ward Beecher, entitled, "Light Out of Darkness." It will commence Tuesday, February 4.

DEMOCRATIC voters had better begin to make up their minds whether they favor a primary election or a delegate convention for the purpose of making nominations for the city offices.

THE Indianapolis News wants the state of Indiana to have a flag of its own. What's the matter with the star, spangled banner? It suits us all right. We are for the old flag, first, last and all the time.

CHAIRMAN ALLEN HAMILTON, of the democratic city central committee, has issued a call for a primary election to take place on February 8th for the purpose of voting on the question of holding a delegate convention or a primary election for the nomination of a city ticket and also to select two committeemen from each ward.

LAST WORDS OF LIFE.

Dying Expressions of Noted Men and Women.

Showing Thoughts of Persons Both Good and Wicked—Life's History in a Single Sentence.

The last expression that come from the lips of dying persons are oftentimes very remarkable, but in no instances is this so marked as in the case of the more prominent personages. These star actors upon life's realistic stage have often lived lives far from good or virtuous, but in the last few moments preceding death the visions of their crimes and wrong doings seem to fly away and from their half-closed lips issue expressions that are beautiful and sublime. This is not only true of the wicked persons recorded in history, but also of men whose deeds have been glorious and with good. In a single sentence many of them have expressed life's history and reveal the secret workings of their innermost thoughts, while others have faced death with terror.

One of the most peaceful deaths of which history has any record was that of George Washington, and his dying words were simply, "It is well." Christopher Columbus said, 'Into Thy hands, Oh, Lord, I commend my spirit," while Nero ironically murmured, "Is this your fidelity?"

Following are the most famous dying words of noted men of all times, omitting the scenes around their deathbeds liable to call for such expressions, and the conditions under which they died:

Cromwell—Then I am safe.

Goethe—Let the light enter.

George IV—And this is death?

Byron—I must sleep now.

Thomas Jefferson—I resign my soul to God, my daughter to my country.

Augustus Caesar—Farewell, Livia, and remember our long union.

Mozart—Let me hear those notes so long my solace and delight.

Marie Antoinette—Lord, enlighten and soften the hearts of my executioners. Adieu forever, my dear children, I go to join your father.

Andrew Jackson—What is the matter with my dear children? Do my looks alarm you? Oh, do not cry. Be good children, and we will all meet in heaven.

Benjamin Franklin—A dying man can do nothing easy.

Sir Humphrey Gilbert—We are near heaven by sea as by land.

John Quincy Adams—Independence forever.

Socrates—Crito, we owe a cock to Escalapius; pay it soon, I pray you, and neglect it not.

Richard III.—Not one foot will I flee so long as breath abides within my breast, for He who shaped both the sea and land this day shall end my battles all my life. I will die king of England.

Stonewall Jackson—Let us cross over the river of death and rest under the shade of the trees of heaven.

Bishop Kerr—God's will be done.

Lord Chesterfield—Give Dayrolles a chair.

John Randolph—Remorse! Remorse! Write it! Write it! Larger! Larger!

Winfield Scott—James, take good care of the horses.

Thomas Hobbes—I am taking a fearful leap in the dark.

Isabella of Aragon—Do not weep for me, nor waste your time in fruitless players for the salvation of my soul.

Frederick V.—There is not a drop of blood on my hands.

Mirabeau—Let me die to the sounds of delicious music.

Lord Bacon—Thy creatures, O Lord, have been my books, but Thy holy scripture much more. I have sought Thee in the courts, fields and gardens; but I found Thee, O God, in Thy sactuary—Thy temple!

Robert Burns—Don't let that awkward squad fire over my grave.

Louis XIV.—I thought that dying had been more difficult.

Lord Tenderden—Gentlemen of the jury, you will now consider you verdict.

Charles II—Don't let poor Nellie starve.

Cardinal Woolsey—Had I but served my God with half the zeal I served my king He would not have given me over in my gray hairs.

William Pitt, the Younger—My country, oh, how I love my country.

Addison to Warwick—I have sent for you to see how a Christian can die.

Mme. Roland—Oh, liberty, how many crimes are committed in thy name.

Sir Walter Scott—Lockhart, I may have but a moment to speak to you. Be a good man. Be virtuous—be religious. Nothing else will give you any comfort when you come to face death as I am now.

Edward VI—Lord, take my spirit.

The Early of Derby—Let the earth be filled with His glory.

Philip Sidney—I would not change my joy for the empire of the world.

Cicero—Here, veteran, if you think it is right, strike.

Michael Angelo—My soul I resign to God, my body to the earth and my worldly possessions to my relatives.

Empress Josephine—I die regretted. I have always desired the happiness of France. I can say with truth that the first wife of Napaleon never caused a tear to flow.

Hood—I am dying out of charity to the undertaker who wishes to urn a lively Hood.

Rosseau—Throw up the window that I may once more see the magnificent scene of nature.

H. Hammond—The Lord make haste.

Gainsborough—We are all going to heaven and Van Dyke is of the company.

Horace Maun—As a dying man I say when you wish to know what you should do, ask yourself what Christ would have done under the same circumstances.

John Kitto—Please ask God to take me soon.

Lord Thurlow—I am shot if I don't believe I am dying.

Sir Walter Raleigh—It matters little if the head lieth.

Marco Bozzarris—To die for liberty is a pleasure and not a pain.

General Wool—This is the last flickering of a lamp that has long been burning.

Bishop Gunning—I thank God that I was brought up in the Church of England.

Sir Thomas Moore (on the scaffold)—I pray you see me safe up and for coming down, let me shift for myself.

Julius Caesar (after being stabbed by Brutus and immediately preceding his last few gasps)—I have provided for everything in my life except death, and now, alas! I am to die though entirely unprepared.

Patrick Henry—Here is a book (the Bible) worth more than all others ever printed. It is my misfortune never to have found time to read it. I trust in the mercy of God, but I fear it is now too late.

Toplady—It will not be long before God takes me, for no mortal can live after the glories which God has manifested to my soul.

Hayden—God preserve the emperor.

Nelson—I thank God I have done my duty.

King Vespasian—An emperor should die standing.

John Wesley—The best of all is, God is with us.

Maria Wesley—I do not sleep. I wish to meet death awake.

John Locke—I have lived long enough, and I am thankful I have enjoyed a happy life; but, after all, look on this life as nothing better than vanity.

John Keats—I feel the daisies growing over me.

Philip Melancthon—I want nothing, and I am looking for nothing but heaven.

Latimer to Ridley—Be of good comfort, brother, for we shall this day light such a candle in England as by God's grace shall never be put out.

Grattan—I am perfectly resigned. I am surrounded by my family; I have served my country; I have reliance upon God and I am not afraid of the devil.

John Knox—While lying here awaiting death I have meditated upon the state of the church, the spouse of Christ. I have fought against spiritual weakness in high places and I have prevailed; I have tasted of heavenly joy, where presently I shall be. Now, for the last time, I commit my soul, body and spirit into His hands. Welcome death, I feel you coming.

Princess Charlotte—You made me drink—pray leave me quiet. I find it affects my head.

John Crone—Oh, Hobima, Hobima, how I do love thee.

Demorax (the philosopher)—You may go home, the show is over.

Fontelle—I suffer nothing, but feel a sort of difficulty in living longer.

George IV—Whatty, what is this? It is death, my boy. They have deceived me.

Lady Jane Gray—Good night.

Irving—If I die, I die unto the Lord. Amen.

Louis IX—I will enter now into the house of the Lord.

Louis XIV—Why weep ye? Did you think I should live forever? (Then after a pause) I thought dying had been harder.

Napoleon—Farewell, France, how I love you. Long may you live.

Mahomet—Oh, Alle, be it so. Henceforth among the glorious host of Paradise.

Matthew Henry—You say you are keeping a record of the sayings of dying men; this is mine: That a life spent in the service of God and communion with Him is the most comfortable and pleasant life that any one can lead in the world.

Alexander Severus, who was a philosopher as well as a great scholar, and had seen nearly all the world during his long life, summed it up in this one sentence on his deathbed: "I have seen all things and all things are of little value." But how much more expressive are these simple words which were last spoken by Christ on the cross: "It is finished"—Pittsburg Dispatch.

NEVER TOO OLD FOR A BIKE.

"I will ne'er grow old,"
Said a new, old maid,
"Tho' for years and years
I've been on the fade;
For with bike in hand
All those years seem hid,
And I feel as young
As I ever did."

"Then I never wait
For a man to come,
But I mount my wheel
And for him I hum;
I am then so spry
That I'm like a kid,
And I feel as young
As I ever did"

Perhaps the "New Woman" will be a stronger woman than the old one. Certainly, fresh air and the right exercise will do much for her. Fresh air is a great restorative, exercise a great nerve tonic if a woman be in condition to take it. A healthy woman can avoid disease. She can avoid the seemingly almost inevitable "weakness" of her sex if she pursues the proper hygienic methods. The same methods will not cure her if she be already sick. Taken under medical direction, in connection with the right medicine, they will help effect a cure. No women who suffers at all from so-called "female weakness" should attempt athletics of any sort. She should first put herself into possession of strong and hearty health by taking Dr. Pierce's Favorite Prescription. After she is thoroughly well, exercise and diversion will help to keep her well. The cure should come first. Dr. Pierce's Favorite Prescription is designed and recommended for only the one thing. It acts directly upon one set of organs. No matter what is the matter with them, it will cure it. It will not cure anything else. It is a wholesome tonic, an invigorating nervine, or nerve-food as well as a healing medicine, and thousands of perfectly well women have found that by taking it regularly during the period of pregnancy, the danger and pain of parturition were much lessened, and in many cases, almost entirely obviated.

In every American household, there should be a copy of Dr. Pierce's great work, "Common Sense Medical Adviser," 1008 pages, illustrated. One copy *free* to any address on receipt of 21 one-cent stamps to pay for mailing *only*. World's Dispensary Medical Association, Buffalo, N. Y.

STORY OF THE WRECK.

And a Story Fraught With Bitterest Memories.

The Awful Grandeur—The Terrible Meaning.

Echoes of a Lost Courage—The Star of a Rising Hope.

A decaying wreck on a wave-washed shore. Bare-ribbed, sun-bleached, rotting inch by inch—a perfect picture of utter uselessness.

Is there not a strange analogy between this desolation and the wreck of your own health, your own hopes, your own life?

You are prostrated by physical and nervous weakness, unable to do your work with ease and comfort; every duty is a burden and you are weak, tired, enervated, exhausted. You feel that you are daily growing more and more nervous, you become worried and anxious in mind, blue, disheartened and discouraged. You cannot eat or sleep well, and your liver and bowels are irregular in action.

In fact, you are fast becoming a wreck. You will soon become useless useless to yourself, useless to your family, useless to the world. And you will lie on the shores of time like the slow decaying ship, a burden to your family and friends, an object of pity or contemptuous indifference, while the winds of unfulfilled hopes, desires and ambitions disturb your repose, and the waves of bitter and vain regret lash you with the knowledge that you might have been cured if you had only taken your case in time?

What is the moral?

Don't delay!

Delay has sacrificed more lives than war and famine combined. Thousands languish under nervous and physical diseases that are easily and readily curable now. Tomorrow or next week it may be too late, and the sufferer who delays when cure is within grasp is more foolish than the fool, more idiotic than the idiot. If you use Dr. Greene's Nervura blood and nerve remedy your cure is assured. It will give you vigor of brain, power of intellect, strength of nerve, create a new digestion, regulate the action of all the organs, invigorate the blood, and restore the weak and run-down system, languishing under its weight of disease, to all its old-time health—bounding pulse, elastic step, strong and steady nerves, keen zest of mind and heart, renewed ambition and enjoyment of each hour as it passes.

It did all this for Mr. E E Adams, of South Walpole, Mass., who says:

'One year ago I was to speak within bounds, or to tell the truth, all broke up. Could not sleep, and eating was a burden, and for over three months I could not lie down nights on account of rheumatism. Was way down in weight, only about 140 pounds, and did not care if I went up altogether.

'I then, after trying everything heard of and all local doctors, began taking Dr. Greene's Nervura blood and nerve remedy, which has done the work. I can sleep all night, eat with the best of them and what I do eat does me good. Nervousness all gone; rheumatism almost forgotten, and my weight 167 pounds, and all with six bottles of nervura. It is the one all-round remedy. I recommend it to everybody. Could give two or three cases that are as high in its praise as I am, through what it has done for me

"There is no person living who can use Nervura and use it faithfully without being benefited. What it has done for me it will do for others, if its directions are faithfully followed. All praise to Dr. Greene's Nervura."

Use Dr. Greene's Nervura blood and nerve remedy, for it is a physician's prescription, the discovery of our most successful specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th St., New York City, who can be consulted concerning any case without charge, personally or by letter.

Henry Wilson, son of Judge Wilson, and Miss Clara, daughter of Capt. A. T. Harris, were found dying at the home of Captain Harris, in New Castle, on Saturday and close by lay a hastily-scribbled note, saying: "You have separated us twice, but you will never do it again." This was signed "Clara" The marriage of the young couple had once been postponed, in deference to the opposition of Miss Harris's parents, and another time an elopement had been frustrated.

SIR JOHN WAS WITH JAMESON.

The Plucky Little Soldier Who Was Captured by the Boer Army.

When the Boer army took Dr. Jameson into camp at Krugersdorp in the Transvaal, it also captured Sir John Willoughby, distinguished as the smallest man in the British army. Sir John, however, could be no pluckier if he were 7 feet tall and weighed 300 pounds. He is a baronet of ancient lineage; he owns four beautiful country seats and a vast amount of other property; he is an

SIR JOHN WILLOUGHBY.

intimate friend of the Prince of Wales, and he belongs to the swell London clubs, but notwithstanding these facts he prefers to do police duty in the wilds of Africa and command the military forces of the Chartered company. Sir John has distinguished himself by numerous deeds of daring, and he has been in many a tight place, but the probabilities are that he will never forget the day he and Jameson and their small army faced the unerring fire of an overwhelming force of Boers and were finally compelled to hoist the white flag and surrender.

A number of years ago Sir John was in command of the British expedition which forced its way up the Zambezi river to Mashonaland, running the gantlet of the Portuguese gunboats and steamers, which vainly endeavored to bar his progress. When he reached Mashonaland, Sir John retorted by tearing down the Portuguese flag, imprisoning a colonel and driving the Portuguese out of the country.

Several years ago Sir John found it necessary to discipline a soldier in the Chartered company's service. The offender's name was Grant, and during his court martial he called Willoughby a "blanked little horse marine." After the hearing Grant escaped in the middle of the night, crawled into Sir John's tent, revolver in hand, and ordered Sir John to dress and get his money and accompany him a prisoner to the Transvaal. Once outside the tent, Sir John made a break for liberty, called out the guard and had Grant strung up to a tree. Sir John still retains his commission as captain of the Royal Life guards, but he is on the retired list.

ENGLAND'S FOREMOST WARRIOR.

Lord Wolseley's Wonderful Record as a Fighter In Many Lands.

Lord Wolseley, the battle scarred commander in chief of the British army, seems likely to, in the near future, find more use for his military talents. After 44 years of warfare he is in far worse condition than Brigadier John M. Corse, the gallant defender of Allatoona, Ga., who was "short a cheek bone and an ear, but able to whip all h—l yet," for he is short a cheek bone and an eye and is well covered with other scars of battle.

Field Marshal Viscount Garnet Joseph Wolseley, G. C. B., G. C. M. G., is a descendant of a family of soldiers. He was born near Dublin June 4, 1833, and in 1852, at the age of 19, enlisted as an ensign. He was immediately hurried away to Burma, where he led a storming party to capture the stronghold of a Burmese chief near Bonabew. The assault was successful, but Wolseley was shot through the thigh and for months his life hung by a thread. He was rewarded with a medal and a lieutenancy.

Almost as soon as he was ready for service he found himself in the trenches before Sevastopol, a target for Russian bullets. A round shot carried away part of his clothing, a bullet passed through his cap and he was several times slightly wounded. Finally while he was assisting in

LORD WOLSELEY.

filled with stones, a Russian round shot struck the gabion, killing two sappers beside him, filling his face and body full of bits of stone, destroying the sight of one eye, smashing his knee and shin and crushing his jawbone. When he finally recovered, he found himself a captain at 22 and a Knight of the Legion of Honor.

He was in the hottest of the fight at the second relief of Lucknow in 1857 and at the age of 26 was a lieutenant colonel. In 1860 he assisted in disciplining China. In 1861 he led the British expedition to Canada in anticipation of war over the Trent affair. In 1862 he ran the blockade and visited prominent Confederate generals. In 1873-4 he whipped the king of Ashanti, was made a major general and was given $125,000 by parliament. In 1884-5 he undertook to relieve Gordon at Khartum, but failed through no fault of his own and was elevated to the peerage. He is still in good health at the age of 63 and probably believes with General Corse that he can whip almost anything yet.

RESUMED OPERATIONS.

The Illinois Steel Mills Again Running.

...ge Ricks Decides in Favor of the ...sylvania Company.—Boss ...ers in Session.

The rolling mills of the Illinois Steel company, located at South Chicago which were shut down December 31, in order to make extensive repairs in the rail and steel departments, opened today with no decrease in the force of men. This gives work to 6,000 employes who have been idle since the shut down.

IMPORTANT RULING IN A DAMAGE CASE

Judge Ricks, of the United States district court at Cleveland, has rendered a decision which is of interest to every railroad man. Harry O. Shaven, sued the Pennsylvania company for $25,000 for personal injuries received as a brakeman. He was a member of the Voluntary Relief association of the Pennsylvania company and received benefits from it. A membership involves the waiving of the right to hold the railroad company liable for any injury for which benefit is received. Shaven's attorneys tried to show that this is illegal. Judge Ricks overruled a motion which had that proposition as its basis.

MANUFACTURERS OF BRASS GOODS HAVE A MEETING.

The Manufacturer's Association of Plumbers' Brass goods, which was organized at Pittsburg last month, began its first annual convention in Cleveland today with representatives present from nearly all sections of the country. The association embraces most of the large manufacturing establishments of plumbers' brass goods in the United States. The most important subjects under consideration are the adjustment of prices, revision of lists and freight rates.

EYE PAINFULLY INJURED.

Charles Waldman, of the Pittsburg boiler shop, narrowly escaped losing one of his eyes yesterday. He was struck with a piece of steel, which cut a gash in the eyelid dangerously near the orbit. Mr. Waldman will be off duty some time.

SECRETARY BURNS SURPRISED.

When Secretary J. W. Burns, of the Railroad department of the Y. M. C. A., came home from South Bend yesterday, he found the Ladies' auxiliary active and was informed that they had arranged to entertain the board of managers at the hall last evening. He immediately began to assist in the preparations, little dreaming that he and his wife were to be the recipients of a surprise and a testimonial of the esteem in which they are held by the members of this department. When all was ready to entertain the "board of managers," Mr. C. H. Newton arose and in a neat little address informed the secretary that he and his wife were the ones to be entertained in particular. He then presented Mr. and Mrs. Burns with a magnificent silver tea service of seven pieces, the gift of their friends. The banquet then proceeded, presided over by A. H. Polhamus as toastmaster, who filled the post with credit and tact. He called on Amos Sine, A. D. Craig, Hiram C. Philley, Mrs. C. Griswold and Miss Mattie Wolford for responses to toasts, which were drank with piping hot coffee. Each of the ladies and gentlemen responded in a happy vein. The menu testified to its being the creation of past masters in the art. The happy affair was brought to a close about 10 o'clock with a prayer offered by the Rev. James Trythall.

WORKING FOURTEEN HOURS.

That portion of the Pittsburg shops where car supplies are made or trimmed up and known in shop parlance as "the iron machine shop," is very busy at present and the men are working fourteen hours per day. The operators of axle lathes and the truck makers are particularly behind with their work.

The train was hauled from Delphi to Frankfort, twenty-five miles, in twenty-one minutes.

The Panhandle has just built at Columbus, O., a sample cabin car, on suggestions made by trainmen, who live in their cabooses much of the time. It will be brought out for inspection this week. It is larger in every respect than any cabin car yet built, and has many improvements which will be appreciated by trainmen.

Mr. and Mrs. Henry Mennewisch, of Hanna street, celebrated the sixteenth anniversary of their wedding last evening. Twenty-five or thirty guests were present and they passed the evening in playing cards, listening to music and dancing. At 12 o'clock a lunch was served. Mr. Mennewish is employed in the Pittsburg blacksmith shop.

All except the poverty stricken roads have completed equipping their cars with grabirons, etc., according to the interstate commerce act, and now comes the more extensive improvements, as within the next twelve months all roads must have their cars equipped with couplers which meet the approval of the Motor Car Builders' association. This improvement will cost the roads a large sum of money, although most cars built in the last two years are now properly equipped.

HE APOLOGIZED.

But His Apology Was Amended at the Last Moment.

Under the great shed of one of Chicago's principal railway stations stood a train about to depart on a far journey into the west, the engine sputtering and trembling under its overcharge of steam. Conductors and brakemen were swinging their lanterns and bustling about full of importance and everything but information. Passengers were scurrying down the long aisles, puffing into the coaches, dropping their bundles into seats and sinking in after them with looks of thankfulness that they had not missed the train and that there was at least a chance to rest.

Outside was a little old man dressed in the grease besmeared uniform of a depot employee swinging carelessly but with the air of supreme importance along the side of the train. He wore on his head a cap of the "tourist" pattern, which had been pulled over his ears so hard and so often that it retained little if any of its original shape. His whiskers were of the "billy goat" cut, and between his teeth was tightly clinched a black clay pipe, on which he pulled complacently. In his right hand he carried a hammer, with which he rapped the car wheels as he passed, carefully listening to the "ring" to make sure that they were in order to stand the whirring over the rails expected of them. Under the last car the little man found one wheel that did not ring to suit him under the blow of his hammer. He tapped it again, but with no more satisfactory result. Straightening up, he shouted to a couple of assistants who trudged along from the other end of the station.

"Take out those wheels," he ordered when they had reached him. But the conductor of the train, overhearing the order, began to expostulate. In five minutes he was to pull out.

"What's the matter with those wheels?" he demanded of the little man with the hammer.

"Take them out, I say," was the only reply.

"But how are you going to take them out when we leave in a couple of minutes?" demanded the conductor.

"I don't care when you leave," replied the inexorable little man, and turning to his assistants he repeated the order, "Take out those wheels."

At this juncture a man carrying a "grip," and who appeared to be recognized by most every one as a person of authority, stopped on his way toward the forward end of the train on an adjoining track.

"Oh, I guess those wheels will stand the run all right," he said in an authoritative way after the situation had been explained to him.

"Well, your guessing has nothing to do with it," snapped the little man in blue. "Take out those wheels, I say."

Everybody seemed startled at the little man's hot answer, the man to whom it was addressed no less than the others. The engine bell of the latter's train began to ring, however, and he hurried away and swung himself on the back platform.

"Well, you've cooked your goose," muttered the conductor, turning on the resolute little man in blue. "Do you know who that was?"

"No, I don't know. Who was it?"

"No one but the vice president of the road."

"Oh, murther. Was that the vice president? Why didn't you tell me?"

"You talked as if you didn't care, that's why."

A week later the same little man stood in the vice president's office, hat in hand, trembling with fear for his job and with an apology ready on his lips.

"I didn't mean just what I said the other night," he began when he finally got the vice president's ear. "If I had known it was you"—

"What you said what other night?" interrupted the vice president, not recognizing his visitor.

"About taking out the wheels, sir," stuttered the little man in blue.

"Oh, that was all right," good naturedly responded the vice president. "That's all right. You were doing your duty as you understood it. Don't worry about that."

"And anyway," went on the little man, emboldened by the assurances of the vice president, "anyway I can't be supposed to know every fool who comes along and tries to tell me my business."—Chicago Inter Ocean.

Stewart, of St. Paul church, Fort Wayne, has just closed a meeting with thirty-two accessions and forty-five conversions. We have bought a parsonage and have the money and subscription sufficient to pay for it."

Last evening a number of the friends called at the home of Mr. Henry Buetter, 160 East Washington street, to remind him of his birthday anniversary. Twenty couples were present and they danced and played cards until 12 o'clock, when a three course supper was served. Shortly afterwards the guests departed, wishing their host many returns of his birthday.

The members of the various military companies in the city met last night at the Rifles' armory to make further arrangements for the Midway Plaisance entertainment, which they will give at the Princess rink beginning on February 12. The main business of the meeting last night was the appointment of the boys to their respective places in the villages and booths. The ladies' committee will meet at the Randall hotel next Tuesday afternoon.

Late yesterday afternoon a wild-eyed rumor came down street that a man had been shot and killed at the corner of Lewis and Clinton streets. The story was that a man had unexpectedly returned to his home in the east end and found another man there with his wife. The wronged husband gave chase and at the corner mentioned above he shot the other fellow dead. Everybody on the streets was excited and Officer Hardendorf hurried to the place to investigate. He found that there was nothing whatever in the report. No such tragedy had happened. It is likely that some fertile-brained romancer invented the story.

Monday evening, the Lincoln club, No. 1451, met as usual in their club rooms and after the usual opening exercises and business was transacted, they continued with their debate, which was, "Is It Right for Women to Vote?' Affirmative, Bert Mills and Carl Blystone; negative, Harry Graham and Elmer Lichtenwalter. The Hon. Edward J. Ritcha acted as judge and decided the question in favor of the affirmative, after which the following program was carried out: Organ voluntary by Vice President Harry Graham; address by Hon. A. E. Lichtenwaiter; vocal solo by Dr. E. J. Ritcha; violin solo by Prof. J. B. Miller; piano solo by Dr. C. Blystone. At a late hour refreshments were served, which was one of the most interesting features of the evening. The event was one that will long be remembered by the members of the L. L. A. The club will meet again next Monday evening as usual.

GOWDY WINS.

Knocks Out Nebeker in the Fight

For the Chairmanship of the State Committee.

Nebeker Withdraws Before the Ballot is Taken and Gowdy Captures the Prize.

INDIANAPOLIS, Ind., Jan. 27.—There was an influx of prominent politicians here yesterday and last night from all the outlying districts, and the fight for the republican chairmanship between E. H. Nebeker and John K. Gowdy was waged with renewed vigor, there being arrayed against the latter the whole power of the Harrison machine, which was formed two months ago by E. H. Nebeker, ex-United States treasurer; W. D. Owens, ex-commissioner of immigration; Captain Hart, ex-auditor of the treasury, and a number of postmasters and others who found employment under Harrison from 1888 to 1892.

Of the thirteen committeemen, five are openly for Gowdy, four for Nebeker and four claim to be unpledged, but at least three of the latter were pledged to Gowdy before they were selected by the district conventions, and it is regarded as significant of the methods which the machine has invoked that they have now come up to the meeting of the committee saying that they will do that which is best for the party.

It is no secret that pledges of positions under the expected republican administration are being offered for votes for Nebeker, and upon these methods his election depends.

NEBEKER WITHDRAWS.

INDIANAPOLIS, Ind., Jan. 28.—The only name that will be presented to the republican state central committee when it meets at 2 o'clock this afternoon to elect a chairman, will be that of John K. Gowdy, of Rushville, who will be re-elected. The long and bitter contest was ended this morning by E. H. Nebeker, the other candidate, who authorized the announcement that his name would not be placed in nomination. This means that Russell Seeds, who has been secretary, will be succeeded by some other man.

TURPIE'S SENTIMENTS.

Turkish Government Should be Destroyed.

"Our Message to the Sultan Should be Followed by a Shot Through the Grand Seraglio."

WASHINGTON, Jan. 28.—Senator Turpie, of Indiana, in presenting a petition concerning Turkish massacres, said in the recent calamities the Armenians were charged with no revolt. They were charged only with being Christians. Their only crime was that they claimed and exercised the right to worship the Divine Creator of the universe. The time has come, said the senator, when there should be an official notification to Turkey and to the Mohammedan church that there has been a decadence in their power to proselyte with the sword. "We have already sent a message," said the senator, referring to the concurrent resolution, but the blow should follow. The message should be followed by a shot which would go crashing through the grand seraglio."

The senator urged that it would be a glorious day when the destruction of this Turkish power was brought about. He would have the messages and demands sent not only to the sultan, but echoed through the mosques and minarets. It should thunder until these murderers learned the power and advance of Christianity. The senator urged that the Christian world might now be called upon to take up another great crusade, driving back the rule of Mohammedanism and establishing the rule of Christianity. Mr. Turpie spoke with great earnestness and vigor, and his remarks attracted much attention.

MILITARY PARK.

The Vicksburg Battlefield Will be Beautified.

WASHINGTON, Jan. 28.—The house committee on military affairs decided today to recommend the creation of a national military park on the Vicksburg battlefield and will report to the house the bill introduced by Mr Catchings. The park contemplated will embrace 1,200 acres where the opposing armies were lined at the siege of Vicksburg. The bill provides for a commission of three to outline the site, to be appointed by the secretary of war, and a secretary and historian. The cost of the land is limited to $50 000, but the entire expense of the park, if the project is carried out, will be half a million.

Fear an Insurrection.

CONSTANTINOPLE, Jan. 28.—The government has taken $600,000 from the official pension fund with which to meet urgent state requirements. The Mauser rifles are to be given to the troops as soon as possible. It is believed this step is due to the fear that an insurrectionary movement in Macedonia is impending.

Jacobs Sues for Damages.

CRAWFORDSVILLE Ind., Jan. 28—Simpson and W. B Montgomery caused the arrest of William Jacobs on the charge of forgery recently and he was in jail fifteen hours Now he sues for damages of $1,000 an hour on account of law practice lost while he was behind the bars.

CALL'S SARCASM.

"Regular Committees the Sepulchers of Legislation."

The Resolution for the Investigation of the Arrest of Debs Leads to a Lively Debate.

WASHINGTON, Jan. 28.—Mr. Call's resolution for an investigation of the arrest of Eugene V. Debs came up in the senate this morning and Mr. Call urged immediate action, saying that the laboring interests of the country desired the inquiry. Mr. Hill said that ordinarily he had great respect for the laboring people of the country, but he pointed out that no petitions had come from the representatives of these people; he had never heard that they desired this investigation. It might be that such an inquiry was desirable, but if so, it should be conducted by one of the regularly constituted committees, and not by a special committee. To that end Mr. Hill offered an amendment, directing that the whole subject of contempt of court, as enforced by the federal judiciary be investigated by the committee on judiciary and that a report be made as to what, if any, legislation was necessary. Mr Call dissented to the amendment. "Why is it intended to suppress this inquiry?" he asked. These regular committees were the sepulchers of legislation. If action was to be taken a special committee was the only means of accomplishing it. Mr. Call spoke vigorously upon the indignities and wrongs against Eugene V. Debs because he had ventured to express opinions contrary to those entertained by a court. The senator said this inquiry was vital to the preservation of civil liberty and the inviolability of the personal rights of the individual.

SHOCKING AFFAIR.

A Farmer Commits Suicide in a Horrible Manner.

Climbed Upon a Straw Stack, Sets It on Fire and Then Sends a Bullet in His Brain.

NEW CASTLE, Ind., Jan. 28.—Last evening John P. Morris committed suicide in an unusual and horrifying manner. He lived on a farm near this city and had been addicted to the use of intoxicants for many years, but had lately reformed. This morning he took a revolver and climbed to the top of his straw stack, near his house. He first set fire to the straw and as the flames crept around him he deliberately placed the revolver to one eye and pulled the trigger, sending a bullet into his brain. He fell down in the burning straw, but members of the family rushed to the scene and dragged him out. He was still alive two hours after the shooting, but cannot survive. It is not known what induced him to commit the deed, but it is supposed his despondency over his ill success in attempting to reform caused him to do it. He leaves a wife and several children.

DOUBLE KILLING.

Two Farmers Quarrel About a Piece of Land.

They Fight With Fists, Then Guns and Both Die Within an Hour of the Duel.

FORT WORTH, Texas, Jan. 28.—News reached this city today of a double killing at Shofters lake, Andrews county. Crick Atmore and Wils Mason quarreled over a section of school land both wanted and came to blows, after which both went home, got Winchesters and went on a hunt for each other. They met on the bank of Shofters lake, simultaneously fired and both shots took effect. Atmore was shot in the head, dying instantly, and Mason was shot in the body, dying in less than an hour.

DR. BROWN'S CASE.

The Investigating Committee Refuses to Act.

SAN FRANCISCO, Jan. 28.—The committee appointed to consider the charges of immorality against Rev. Dr. C. O. Brown, pastor of the First Congregational church, in this city, has refused to act on the ground that it has no power. It was announced that at the conclusion of the trial of Mrs. Mary Davidson, who was arrested at the instance of Dr. Brown on a charge of blackmail, the charges against the minister would be heard by a competent tribunal of the church.

A BAD NEGRO

Creates Consternation on a Train.

Shoots Into a Crowded Coach.

Kills One Man and Wounds Three Others.

The Brute Overpowered by the Train Crew and Later Hanged by Judge Lynch.

BLUEFIELD, W. Va., Jan. 28.—Alexander Jones, a negro desperado, boarded a passenger train at Keystone last night. He was under the influence of whiskey, very boisterous and quarrelsome. Conductor McCullough came through the cars and after demanding fare from Jones advised him to be quiet. The negro became much incensed and when an attempt was made to eject him he pulled two revolvers from a belt and began firing promiscuously through the train, which was crowded with passengers. He emptied both revolvers and attempted to reload, but was overpowered by trainmen.

When the smoke had cleared away and the excitement had abated it was discovered that W. H. Strother, postmaster at Elkhorn, was shot through the abdomen. The wound resulted in almost instant death.

Conductor McCullough was shot in the side, but not seriously injured, and Peter Rice, a colored miner, was shot through the right breast and probably fatally injured. Jones was incarcerated in the Elkhorn jail to await the arriva of a train which was to convey him to Huntington for safe keeping. The train arrived at 2 a. m. and the officers and prisoner boarded it without molestation. Meanwhile a mob had been organized at Welch, fifteen miles west of Keystone, and had marched to Hemphill, a small station one mile west of Welch. The train was flagged by a danger signal and the mob, numbering 100 men, boarded it and at the point of Winchesters, forced the officers to release the prisoner.

They dragged Jones a short distance to a tree, where he was swung to a limb and his body riddled with bullets, the following note being attached: "This deed was done for the purpose of example and warning to negroes. So beware!" Some of the most prominent and influential citizens of this section composed the mob. Jones, it is alleged, had killed three men prior to his last offense. Excitement is at a high pitch. An effort was made by Jones' friends to rescue him from the angry mob, but proved to be futile. W. H. Strother was one of the best known men in this section and had numerous friends. He had just succeeded Paul Fletcher, who was killed a short time ago, as postmaster at Elkhorn.

TONNAGE COMMITTEE.

It Meets to Regulate the Traffic in Coal.

They Work Behind Closed Doors and Will Not Make Public Their Conclusions.

NEW YORK, Jan. 28.—J. George Maxwell, president of the Central railroad, of New Jersey; President Thomas, of the Erie, and Vice President Holden, of the Delaware, Lackawanna and Western railroad, comprising the committee appointed at the presidents' meeting of the anthracite coal carrying roads to formulate a plan for an equitable division of the anthracite coal tonnage, met today at the office of Chairman Maxwell. Mr. Maxwell said that it might be several days before the committee had concluded its work, and even then the agreement arrived at will not be made public until after a meeting of the presidents of all of the roads interested in the matter has been held and the plan formally ratified.

PERMANENT TRIBUNAL

Of Arbitration For All English Speaking Nations.

LONDON, Jan. 28.—The text of a declaration is published here urging the establishment of a permanent tribunal of arbitration for all the English speaking nations and suggesting that the governments give effect to the resolution on this subject in congress in 1892 and the house of commons in 1893. The declaration is signed by Dean Farrar, the bishop of Durham, the canon of Westminster; the Rev Hugh Price Hughes, editor of the Methodist Times, and the vice president of the United Kingdom Alliance; the Rev. Thomas Bowman Stephenson, president of the Wesleyan Methodist conference; the Rev. John Clifford, formerly president of the Baptist Union of Great Britain and Ireland; the Rev. Dr. Brown, formerly chairman of the Congregationalist union; the Rev. Dr. Matthews, secretary of the Presbyterian alliance; the Rev. Oswald Dykes Newman, chairman of the Friends' Peace committee; Rabbi Adler; Lady Henry Somerset, president of the British Woman's Temperance association; Mrs. Richards, president of the Woman's Peace association; Dr. Darby, secretary of the Peace society; William Randall Cramer, M. P., secretary of the International Arbitration league and editor of the Arbitrator, and William T. Stead. The declaration will now be sent throughout Great Britain and the United States for signatures.

CREATED A SENSATION.

The Testimony of An Old Soldier in Court.

To Get an Insurance of $5,000, a Woman Offers $500 for the Killing of Her Husband.

WICHITA, Kas., Jan. 28.—In the trial of F. M. Williamson, charged with murdering Henry H. Leonard to secure the latter's life insurance, Michael Jordan, an old soldier, took the stand and created a sensation.

He swore that Williamson approached him last October, a month before the crime was committed, and suggested that he knew where $500 could easily be made. Williamson told him that he knew of a woman who held a $5,000 insurance policy on the life of Leonard and that she would give $500 of the insurance to any one who would kill him. Williamson then told Jordan all the details of the murderous scheme, and Jordan repeated them in court.

The theory of the state has always been that Williamson consented to a divorce from his wife that she might marry Leonard and under agreement that they would kill Leonard to get the insurance on his life.

BEARISH WHEAT NEWS.

Everything Combines to Break Down Prices.

Heavy Receipts and Unfavorable Cables Have a Tendency to Weaken the Market.

CHICAGO, Jan. 28.—Early wheat news was bearish, as a rul, and May opened at 64½c, about yesterday's closing, sold off to 63⅞c.

Cables come fractionally lower, and the northwest receipts were again large, but the world's weekly shipment were much smaller than expected. There was an absence of country buying and the market became weak and nervous within a narrow range. There was good buying on the break, and May rallied to 64¼@64⅜c.

Dorn easier with the weakness in wheat. May corn opened unchanged at 30⅛c, and sold off to 29⅞@30c.

Oats opened fractionally higher, at 21¼@21⅜c. Trade was slow and the price fell away to 20⅞@21c.

Provisions opened weak, at recessions on the lower hog prices and sympathy with wheat.

Pork opened 7½c lower at $10 85, and sold to $10 80

Lard 5c lower, at $6 05, and declined to $5 97½.

VENEZUELAN WOMEN

Establish a Boycott on English Goods.

NEW YORK, Jan. 28.—A dispatch from Caracas, Venezuela, says: Many women here have organized for the protection of Venezuelan interests as against European agression. They announce that they have established a boycott against English goods. The agents of the railroad built by German capitalists say that no abrupt demand has been made by their government in their behalf. They add that the affair has been pending for several months, and that daily conferences have been held with officials of the Venezuelan administration. This was acquiesced in by the German agents in the hope that the matter would be promptly settled.

THEY WANT TO VOTE.

Delegation of Ladies Before the Senate Committee.

Ask for Equal Participation With Men in Shaping Legislation and Political Rights.

WASHINGTON, Jan. 28.—The senate marble room was completely filled today by a delegation of ladies from the National Equal Suffrage association, who appeared before the senate committee on woman's suffrage to present their plea for recognition at the ballot box. Senators Call and Peffer were the only members of the committee present and they were late in arriving. The ladies were all present at 10 o'clock, the hour specified for the meeting. The speakers were presented by Dr. Annie Shaw. They represented the states as follows:

Connecticut, Mrs Elizabeth D. Bacon, Delaware, Mary E Milligan; District of Columbia, Mrs. Ellen P. Thompson, Illinois, Mrs. Frank Hutchbard; Kentucky, Sally C. Bennett; Maryland, Caroline H. Miller, Massachusetts, Salvinia H. Hatch, Michigan, May S. Knaggs, Minnesota, Julia B. Nelson; Missouri, Mrs Conkling Whitier; New Jersey, Dr Mary Hussey; New York, Mariana W Chapman; North Carolina, Helen A. Lewis; Oklahoma, Mrs. R W. Southard; Pennsylvania, Mrs. Blankenburg; Rhode Island, Mrs. Mary Arnold, South Carolina, Virginia D Young; Vermont, Mary N. Chase; Virginia, Orra Langhorne.

None of the speeches were of more than five minutes duration. The speakers all dwelt upon the right of the female sex to equal participation with men in shaping legislation and almost all of them referred to the injustice of taxing women without allowing them to vote.

Mrs. Thompson, of the District of Columbia, declared that there were 25 per cent. more of educated girls than of educated boys.

Mrs. Hubbard indirectly rasped the committee by declaring that the ladies had shown two of the virtues of statesmanship today, those of punctuality and patience, the reference being to the tardiness or absence of members of the committee.

The delegation also visited the judiciary committee room of the house and made speeches to the committee. The speakers were introduced by Susan B. Anthony and among those who spoke were Henry B. Blackwell, of Boston; Mrs. Saunders, wife of ex-Senator Saunders, of Montana; Elizabeth Yates, of Maine; Dr. Cora S. Eaton, of North Dakota; Mrs. Clara Colby, of the Woman's Tribune; Mrs. Francis A. Williams, a Nevada ranch and mine owner, and Mrs. Caroline M. Eberhard, of Ohio.

TACOMA, Wash., Jan. 28.—Latest advices from China tell of the uttering by Chinese forgers on the island of Java, of $3,000,000 of Java bank notes. In order to get notes accepted forged notary acceptances were placed on them. Already six hundred thousand pounds of forged and discounted notes have been discovered, and many prominent Chinese merchants have been placed under arrest, including Captain Chin, one of the wealthiest Chinamen in Java. It is believed by the police that the forgeries were completed in Singapore. Kewe Cheo Soe, a native of China, now a resident of Sourabaya, and a band of native etchers have been arrested. Soe has confessed to having committed the forgeries, and implicates many others, all of whom insist they are innocent.

AMISH ON TRIAL

For Unlawfully Solemnizing Marriages at Decatur.

DECATUR, Ind., Jan. 28.—The case against the Amish church members was called for trial in the circuit court here yesterday. Three cases were tried, two against Jacob Swartz on a charge of solemnizing marriages of first cousins and marrying without a license, and against David Swartz for unlawfully solemnizing marriages. They were tried before Judge Heller, who will not render a decision for several days. The court experienced great trouble with witnesses, as they refused either to be sworn or affirm. They said they would violate man's laws if they were contrary to Christ's laws. The other twelve cases will be tried by a jury and will last about three weeks.

SWINDLERS ARRESTED.

Their Victims Rich Miners of Denver and St. Louis.

KANSAS CITY, Mo., Jan. 28.—Two impecunious young men, said to be from New England, and giving the names of Mason M. Totten and C. T. Holliday, have been arrested here by postoffice inspectors from Denver and St. Louis. They are accused of having used the United States mails in swindling several mining stock brokers of Denver. Their plan, operating from Kansas City, was to send urgent requests by mail for certain mining stocks, enclosing checks on Kansas City banks covering the market value of the shares asked for. Neither of the men had a cent in bank here.

MYSTERIOUS CASE.

A Woman on Erie Street Drinks Carbolic Acid.

Whether or Not She Attempted Suicide is Not Known, But Circumstances Look That Way.

Last evening a couple of well known east end gentlemen were walking east on Washington street, when at the corner of Comparet and Washington streets they were accosted by a man who was considerably excited. The man inquired almost breathlessly for the nearest doctor and the gentlemen directed him to Dr. Harrod. The inquirer said he was a stranger and knew nothing about where anyone lived in that part of the city, but he started off hurriedly toward Dr. Harrod's house after he had explained a little further. He said a woman had drank carbolic acid and was in a bad condition. A doctor would have to get to her in a hurry. Whether it was with suicidal intent that the woman drank the acid, he did not say.

THE SENTINEL reporter asked Dr. Harrod this morning about the case, but the doctor refused to say anything about it. He said he did not know the woman's name, he did not know why she took the acid, he could not say whether she lived on Erie street or not, and he knew nothing about the case. He said, however, that she was getting along all right when he left her.

Whether or not it was a case of attempted suicide THE SENTINEL has been unable to learn, but the circumstances surrounding the mysterious occurrence would tend to show that it was. It is known that the woman lives on Erie street, but what caused her to drink the acid could not be ascertained.

DEADLY GLANDERS

Found Among Horses Near This City.

Four Killed by the State Veterinarian on Monday.

Startling Discovery Made by Dr. W. F. Myers—Forty Horses Examined and Many Quarantined.

Four horses who were affected with genuine cases of glanders were killed by the state health officers yesterday near this city.

The horses were owned by a farmer named Wolf, who lives on his farm, six miles from this city on the Illinois road. A few days ago Dr. W. F. Myers was called to the Wolf farm to examine some horses that were sick. As soon as he saw them he pronounced the disease glanders, one of the most dangerous and contagious of all the diseases which horses are subject to. He immediately notified the state veterinarian of the fact and the latter came to this city yesterday for the purpose of investigating thoroughly.

The state veterinarian and Dr. Myers, together with Fred Myers, the Washington street liveryman, went to the farm. The state official at once called the disease glanders and ordered the four afflicted horses killed. The horses were good farm horses. Mr. Wolf owned seven head of horses, so that when the four had been killed he was left with but three. And it is possible that these three may also have to be killed, as they were with the sick horses and are likely to have contracted the disease, although it has not yet developed in them. They were quarantined and the veterinarians will watch for developments.

About forty head of horses in that same neighborhood were examined by the doctors yesterday. They found no further traces of the disease, but they quarantined some horses that had been with those afflicted in order to prevent, if possible, any spread. Glanders was found in a couple of horses not far from the Wolf farm a year or so ago and the horses were killed. Since that time nothing more was seen of the disease until a few days ago.

The farmers in the entire neighborhood are excited over the discovery of the malady in their midst and they are taking every possible precaution to keep their animals free from the trouble. If any further cases develop they will show themselves within a very few days.

THE CITY HALL.

News and Notes From Courts and Offices.

Police Court—Horse Taken Up—Garbage Bids Opened—An Old Man's Queer Actions.

The only cases in police court this morning were a couple of plain, unornamented drunks. They were John Smith and James Crabb. Both went to jail.

OLD MAN'S STRANGE ACTIONS.

Frederick Weber, who for some time has been making his home with his daughter, Mrs. John Carl, on the corner of Calhoun and Chestnut streets, was taken to the police station this morning by Officer Flickinger. Weber is an old man, being past eighty-three. For a long time he has acted queer, and the folks are positive that his mind has failed him. They could not bear his peculiarities any longer, and they will have a commission of lunacy appointed to decide as to his mental condition. The old man was taken to the county jail. He is also the father of Milton Weber.

TOOK UP A HORSE.

Officer Harkenrider took up a horse and buggy that was found alone on Main street last night. The outfit was taken to the livery stable at No. 55 East Main street and the officers are trying to find out who it belongs to.

HAS GRIPPE.

For two or three days Deputy Comptroller John Evans has had a cold that made him feel like a cold storage warehouse. He tried to fight it off, but it got the best of him and today he was down sick. He was confined to his home, and feeling about as bad as a case of grippe generally makes a man feel.

NEARLY ASPHYXIATED.

Two Families Have Narrow Escapes From Death.

Mr. and Mrs. Christian Lochrman and Daughter, and H. L. Bates and Family the Sufferers.

Mr. and Mrs. Christian Lochrman and their daughter, aged fourteen years, narrowly escaped death from asphyxiation this morning. The gas from a coal stove escaped and filled their bed rooms early this morning, while they were still in bed, and when Mr. Lochrman's son found them they were unconscious from its effects. He at once called Dr. H. V. Sweringen, who restored his patients to consciousness and at noon, when THE SENTINEL heard from them, they were out of danger.

ANOTHER CASE.

The family of H. L. Bates, of No. 129 West Third street, were nearly asphyxiated by the fumes of burned gas yesterday morning. The flue being filled with soot it did not allow the burned gas to escape. Mr. Bates, not being as badly affected as his wife and baby, with great difficulty restored them to consciousness, when Dr. Stults was called in and prescribed for the family. All are getting along nicely.

DESIGNS ASKED

For the New Covered Police Patrol Wagon.

Board of Public Safety Will Utilize the Best Ideas Submitted by Fort Wayne Manufacturers.

The board of public safety will at the meeting tomorrow evening receive and examine the plans submitted by the several Fort Wayne wagon manufacturers for the new covered patrol wagon, which it is proposed to purchase for the use of the police department. All the wagon makers in the city have been asked to submit the best plans they can conceive and from all these the board will select whatever the members think are the best ideas. It may be that no one complete plan submitted will be adopted, but it is more likely that the board will cull out the best ideas contained in all and use them in making a design for the wagon themselves. Mr. Rossington, of the board, spent yesterday afternoon calling upon the various wagon makers and asking them to submit their designs to the board at Wednesday night's meeting. The board will not ask for bids from outside firms, preferring to have the wagon built in this city by a home manufacturer.

The Studebaker Wagon company, of South Bend, heard that the city intended buying an ambulance, and they sent a number of photographs of ambulances of their manufacture, but the board wants a patrol wagon instead of an ambulance.

It is expected by the board that the wagon will not cost over $400. It may be considerably less. It will weigh but little if any more than the open wagon now in use by the department. The cover will be made of duck cloth or some similar material equally as strong and durable.

The board intends to award the contract for the building of the wagon just as soon as the proper design is decided upon.

TO INVESTIGATE.

A Committee Will Visit Electric Roads at Other Cities.

The citizens' committee which is considering the Fort Wayne and Hicksville electric railroad scheme had a meeting last night. Among other things talked over was the idea of sending a committee to other cities to gather information in regard to the operation of suburban roads. It was finally agreed to send out such a committee and Hon. Charles McCulloch and ex-Mayor Muhler were appointed to take the trip.

These gentlemen leave tomorrow morning and they will visit Detroit and Toledo. They will investigate the manner of building suburban roads, how they are operated, the profits, etc. When they return and make a report the citizens' committee will no doubt base its decision upon what they say.

GOVERNOR PATTISON, of Pennsylvania is looming up as a presidential candidate. If it isn't Matthews, Pattison would be all right.

MAYORALTY candidates will develop rapidly enough as soon as it is known whether we are to have a primary election or a delegate convention.

THE congressional candidates will get a hustle on themselves now that an early convention has been decided on by the district committee.

AND now the free silver people are talking of a party of their own. They would catch some of the members of both the republican and democratic parties.

THE SENTINEL has made arrangements to publish the remarkable story of Mrs. Henry Ward Beecher, entitled, "Light Out of Darkness." It will commence Tuesday, February 4.

DEMOCRATIC voters had better begin to make up their minds whether they favor a primary election or a delegate convention for the purpose of making nominations for the city offices.

CHAIRMAN ALLEN HAMILTON, of the democratic city central committee, has issued a call for a primary election to take place on February 8th for the purpose of voting on the question of holding a delegate convention or a primary election for the nomination of a city ticket and also to select two committeemen from each ward.

LAST WORDS OF LIFE.

Dying Expressions of Noted Men and Women.

Showing Thoughts of Persons Both Good and Wicked—Life's History in a Single Sentence.

The last expression that come from the lips of dying persons are oftentimes very remarkable, but in no instances is this so marked as in the case of the more prominent personages. These star actors upon life's realistic stage have often lived lives far from good or virtuous, but in the last few moments preceding death the visions of their crimes and wrong doings seem to fly away and from their half-closed lips issue expressions that are beautiful and sublime. This is not only true of the wicked persons recorded in history, but also of men whose deeds have been glorious and with good. In a single sentence many of them have expressed life's history and reveal the secret workings of their innermost thoughts, while others have faced death with terror.

One of the most peaceful deaths of which history has any record was that of George Washington, and his dying words were simply, "It is well." Christopher Columbus said, "Into Thy hands, Oh, Lord, I commend my spirit," while Nero ironically murmured, "Is this your fidelity?"

Following are the most famous dying words of noted men of all times, omitting the scenes around their deathbeds liable to call for such expressions, and the conditions under which they died:

Cromwell—Then I am safe.

Goethe—Let the light enter.

George IV—And this is death?

Byron—I must sleep now.

Thomas Jefferson—I resign my soul to God, my daughter to my country.

Augustus Caesar—Farewell, Livia, and remember our long union.

Mozart—Let me hear those notes so long my solace and delight.

Marie Antoinette—Lord, enlighten and soften the hearts of my executioners. Adieu forever, my dear children, I go to join your father.

Andrew Jackson—What is the matter with my dear children? Do my looks alarm you? Oh, do not cry. Be good children, and we will all meet in heaven.

Benjamin Franklin—A dying man can do nothing easy.

Sir Humphrey Gilbert—We are near heaven by sea as by land.

John Quincy Adams—Independence forever.

Socrates—Crito, we owe a cock to Esculapius. pay it soon, I pray you, and neglect it not.

Richard III.—Not one foot will I flee so long as breath abides within my breast, for He who shaped both the sea and land this day shall end my battles all my life. I will die king of England.

Stonewall Jackson—Let us cross over the river of death and rest under the shade of the trees of heaven.

Bishop Kerr—God's will be done.

Lord Chesterfield—Give Dayrolles a chair.

John Randolph—Remorse! Remorse! Write it! Write it! Larger! Larger!

Winfield Scott—James, take good care of the horses.

Thomas Hobbes—I am taking a fearful leap in the dark.

Isabella of Aragon—Do not weep for me, nor waste your time in fruitless prayers for the salvation of my soul.

Frederick V.—There is not a drop of blood on my hands.

Mirabeau—Let me die to the sounds of delicious music.

Lord Bacon—Thy creatures, O Lord, have been my books, but Thy holy scripture much more. I have sought Thee in the courts, fields and gardens; but I found Thee, O God, in Thy sanctuary—Thy temple!

Robert Burns—Don't let that awkward squad fire over my grave.

Louis XIV.—I thought that dying had been more difficult.

Lord Tenderden—Gentlemen of the jury, you will now consider you verdict.

Charles II—Don't let poor Nellie starve.

Cardinal Woolsey—Had I but served my God with half the zeal I served my king He would not have given me over in my gray hairs.

William Pitt, the Younger—My country, oh, how I love my country.

Addison to Warwick—I have sent for you to see how a Christian can die.

Mme. Roland—Oh, liberty, how many crimes are committed in thy name.

Sir Walter Scott—Lockhart, I may have but a moment to speak to you. Be a good man. Be virtuous—be religious. Nothing else will give you any comfort when you come to face death as I am now.

Edward VI—Lord take my spirit.

The Early of Derby—Let the earth be filled with His glory.

Philip Sidney—I would not change my joy for the empire of the world.

Cicero—Here, veteran, if you think it is right, strike.

Michael Angelo—My soul I resign to God, my body to the earth and my worldly possessions to my relatives.

Empress Josephine—I die regretted. I have always desired the happiness of France. I can say with truth that the first wife of Napoleon never caused a tear to flow.

Hood—I am dying out of charity to the undertaker who wishes to urn a lively Hood.

Rosseau—Throw up the window that I may once more see the magnificent scene of nature.

E. Hammond—The Lord make haste.

Gainsborough—We are all going to heaven and Van Dyke is of the company.

Horace Mann—As a dying man I say when you wish to know what you should do, ask yourself what Christ would have done under the same circumstances.

John Kitto—Please ask God to take me soon.

Lord Thurlow—I am shot if I don't believe I am dying.

John Knox—While lying here awaiting death I have meditated upon the state of the church, the spouse of Christ. I have fought against spiritual weakness in high places and I have prevailed; I have tasted of heavenly joy, where presently I shall be. Lady Jane Gray—Good night.

Irving—If I die, I die unto the Lord. Amen.

Louis IX—I will enter now into the house of the Lord.

Louis XIV—Why weep ye? Did you think I should live forever? (Then after a pause) I thought dying had been harder.

Napoleon—Farewell, France, how I love you. Long may you live.

Mahomet—Oh, Alla, be it so. Henceforth among the glorious host of Paradise.

Matthew Henry—You say you are keeping a record of the sayings of dying men; this is mine: That a life spent in the service of God and communion with Him is the most comfortable and pleasant life that any one can lead in the world.

Alexander Severus, who was a philosopher as well as a great scholar, and had seen nearly all the world during his long life, summed it up in this one sentence on his deathbed: "I have seen all things and all things are of little value." But how much more expressive are these simple words which were last spoken by Christ on the cross: "It is finished."—Pittsburg Dispatch.

NEVER TOO OLD FOR A BIKE.

"I will ne'er grow old,"
Said a new, old maid,
"Tho' for years and years
I've been on the fade;
For with bike in hand
All those years seem hid,
And I feel as young
As I ever did."

"Then I never wait
For a man to come,
But I mount my wheel
And for him I hum;
I am then so spry
That I'm like a kid,
And I feel as young
As I ever did."

Perhaps the "New Woman" will be a stronger woman than the old one. Certainly, fresh air and the right exercise will do much for her. Fresh air is a great restorative, exercise a great nerve tonic if a woman be in condition to take it. A healthy woman can avoid disease. She can avoid the seemingly almost inevitable "weakness" of her sex if she pursues the proper hygienic methods. The same methods will not cure her if she be already sick. Taken under medical direction, in connection with the right medicine, they will help effect a cure. No women who suffers at all from so-called "female weakness" should attempt athletics of any sort. She should first put herself into possession of strong and hearty health by taking Dr. Pierce's Favorite Prescription. After she is thoroughly well, exercise and diversion will help to keep her well. The cure should come first. Dr. Pierce's Favorite Prescription is designed and recommended for only the one thing. It acts directly upon one set of organs. No matter what is the matter with them, it will cure it. It will not cure anything else. It is a wholesome tonic, an invigorating nervine, or nerve-food as well as a healing medicine, and thousands of perfectly well women have found that by taking it regularly during the period of pregnancy, the danger and pain of parturition were much lessened, and in many cases, almost entirely obviated.

In every American household, there should be a copy of Dr. Pierce's great work, "Common Sense Medical Adviser." 1008 pages, illustrated. One copy *free* to any address on receipt of 21 one-cent stamps to pay for mailing only. World's Dispensary Medical Association, Buffalo, N. Y.

STORY OF THE WRECK.

And a Story Fraught With Bitterest Memories.

The Awful Grandeur—The Terrible Meaning.

Echoes of a Lost Courage—The Star of a Rising Hope.

A decaying wreck on a wave-washed shore. Bare ribbed, sun-bleached, rotting inch by inch—a perfect picture of utter uselessness.

Is there not a strange analogy between this desolation and the wreck of your own health, your own hopes, your own life?

You are prostrated by physical and nervous weakness, unable to do your work with ease and comfort; every duty is a burden and you are weak, tired, enervated, exhausted. You feel that you are daily growing more and more nervous, you become worried and anxious in mind, blue, disheartened and discouraged. You cannot eat or sleep well, and your liver and bowels are irregular in action.

In fact, you are fast becoming a wreck. You will soon become useless useless to yourself, useless to your family, useless to the world. And you will lie on the shores of time like the slow decaying ship a burden to your family and friends, an object of pity or contemptuous indifference, while the winds of unfulfilled hopes, desires and ambitions disturb your repose, and the waves of bitter and vain regret lash you with the knowledge that you might have been cured if you had only taken your case in time?

What is the moral?

Don't delay!

Delay has sacrificed more lives than war and famine combined. Thousands languish under nervous and physical diseases that are easily and readily curable now. Tomorrow or next week it may be too late, and the sufferer who delays when cure is within grasp is more foolish than the fool, more idiotic than the idiot. If you use Dr Greene's Nervura blood and nerve remedy your cure is assured. It will give you vigor of brain, power of intellect, strength of nerve, create a new digestion, regulate the action of all the organs, invigorate the blood, and restore the weak and run-down system, languishing under its weight of disease, to all its old-time health—bounding pulse, elastic step, strong and steady nerves, keen zest of mind and heart, renewed ambition and enjoyment of each hour as it passes.

It did all this for Mr. E E Adams, of South Walpole, Mass, who says:

"One year ago I was, to speak within bounds, or to tell the truth, all broke up. Could not sleep, and eating was a burden, and for over three months I could not lie down nights on account of rheumatism. Was way down in weight, only about 140 pounds, and did not care if I went up altogether.

"I then, after trying everything heard of and all local doctors, began taking Dr Greene's Nervura blood and nerve remedy, which has done the work. I can sleep all night, eat with the best of them and what I do eat does me good. Nervousness all gone; rheumatism almost forgotten, and my weight 167 pounds, and all with six bottles of nervura. It is the one all-round remedy. I recommend it to everybody. Could give two or three cases that are as high in its praise as I am, through what it has done for me.

"There is no person living who can use Nervura and use it faithfully without being benefited. What it has done for me it will do for others, if its directions are faithfully followed. All praise to Dr. Greene's Nervura."

Use Dr. Greene's Nervura blood and nerve remedy, for it is a physician's prescription, the discovery of our most successful specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th St, New York City, who can be consulted concerning any case without charge, personally or by letter.

This was signed "Clara." The marriage of the young couple had once been postponed, in deference to the opposition of Miss Harris's parents, and another time an elopement had been frustrated.

SIR JOHN WAS WITH JAMESON.

The Plucky Little Soldier Who Was Captured by the Boer Army.

When the Boer army took Dr. Jameson into camp at Krugersdorp in the Transvaal, it also captured Sir John Willoughby, distinguished as the smallest man in the British army. Sir John, however, could be no pluckier if he were 7 feet tall and weighed 300 pounds. He is a baronet of ancient lineage; he owns four beautiful country seats and a vast amount of other property; he is an intimate friend of the Prince of Wales, and he belongs to the swell London clubs, but notwithstanding these facts he prefers to do police duty in the wilds of Africa and command the military forces of the Chartered company. Sir John has distinguished himself by numerous deeds of daring, and he has been in many a tight place, but the probabilities are that he will never forget the day he and Jameson and their small army faced the unerring fire of an overwhelming force of Boers and were finally compelled to hoist the white flag and surrender.

SIR JOHN WILLOUGHBY.

A number of years ago Sir John was in command of the British expedition which forced its way up the Zambezi river to Mashonaland, running the gantlet of the Portuguese gunboats and steamers, which vainly endeavored to bar his progress. When he reached Mashonaland, Sir John retorted by tearing down the Portuguese flag, imprisoning a colonel and driving the Portuguese out of the country.

Several years ago Sir John found it necessary to discipline a soldier in the Chartered company's service. The offender's name was Grant, and during his court martial he called Willoughby a "blanked little horse marine." After the hearing Grant escaped in the middle of the night, crawled into Sir John's tent, revolver in hand, and ordered Sir John to dress and get his money and accompany him a prisoner to the Transvaal. Once outside the tent, Sir John made a break for liberty, called out the guard and had Grant strung up to a tree. Sir John still retains his commission as captain of the Royal Life guards, but he is on the retired list.

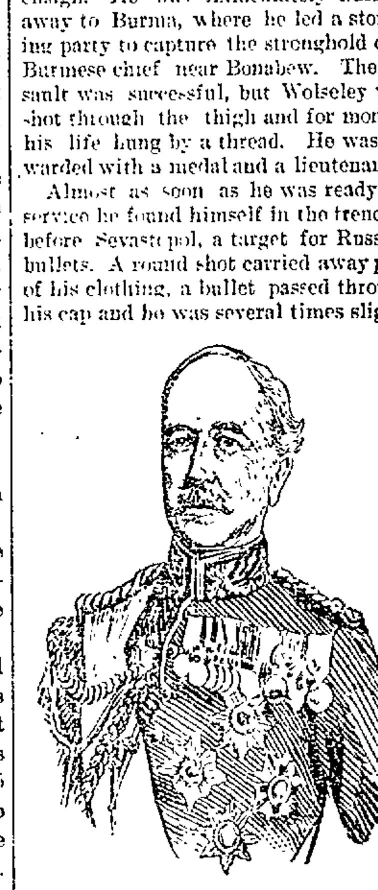

ENGLAND'S FOREMOST WARRIOR.

Lord Wolseley's Wonderful Record as a Fighter In Many Lands.

Lord Wolseley, the battle scarred commander in chief of the British army, seems likely to, in the near future, find more use for his military talents. After 44 years of warfare he is in far worse condition than Brigadier John M. Corse, the gallant defender of Allatoona, Ga., who was "short a cheek bone and an ear, but able to whip all h—l yet," for he is short a cheek bone and an eye and is well covered with other scars of battle.

Field Marshal Viscount Garnet Joseph Wolseley, G. C. B., G. C. M. G., is a descendant of a family of soldiers. He was born near Dublin June 4, 1833, and in 1852, at the age of 19, enlisted as an ensign. He was immediately hurried away to Burma, where he led a storming party to capture the stronghold of a Burmese chief near Bonabew. The assault was successful, but Wolseley was shot through the thigh and for months his life hung by a thread. He was rewarded with a medal and a lieutenancy.

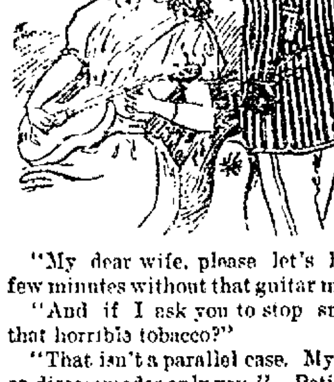

Almost as soon as he was ready for service he found himself in the trenches before Sevastopol, a target for Russian bullets. A round shot carried away part of his clothing, a bullet passed through his cap and he was several times slightly wounded. [illegible] while he was assisting in [illegible] filled with stones, a Russian round shot struck the gabion, killing two sappers beside him, filling his face and body full of bits of stone, destroying the sight of one eye, smashing his knee and shin and crushing his jawbone. When he finally recovered, he found himself a captain at 22 and a Knight of the Legion of Honor.

LORD WOLSELEY.

He was in the hottest of the fight at the second relief of Lucknow in 1857 and at the age of 26 was a lieutenant colonel. In 1860 he assisted in disciplining China. In 1861 he led the British expedition to Canada in anticipation of war over the Trent affair. In 1862 he ran the blockade and visited prominent Confederate generals. In 1873-4 he whipped the king of Ashanti, was made a major general and was given $125,000 by parliament. In 1884-5 he undertook to relieve Gordon at Khartum, but failed through no fault of his own and was elevated to the peerage. He is still in good health at the age of 62 and probably believes with General Corse that he can whip almost anything yet.

ion arose and in a neat little address informed the secretary that he and his wife were the ones to be entertained in particular. He then presented Mr. and Mrs. Burns with a magnificent silver tea service of seven pieces, the gift of their friends. The banquet then proceeded, presided over by A. H. HE APOLOGIZED.

But His Apology Was Amended at the Last Moment.

Under the great shed of one of Chicago's principal railway stations stood a train about to depart on a far journey into the west, the engine sputtering and trembling under its overcharge of steam. Conductors and brakemen were swinging their lanterns and bustling about full of importance and everything but information. Passengers were scurrying down the long aisles, putting into the coaches, dropping their bundles into seats and sinking in after them with looks of thankfulness that they had not missed the train and that there was at least a chance to rest.

Outside was a little old man dressed in the grease besmeared uniform of a depot employee swinging carelessly but with the air of supreme importance along the side of the train. He wore on his head a cap of the "tourist" pattern, which had been pulled over his ears so hard and so often that it retained little if any of its original shape. His whiskers were of the "billy goat" cut, and between his teeth was tightly clinched a black clay pipe, on which he pulled complacently. In his right hand he carried a hammer, with which he rapped the car wheels as he passed, carefully listening to the "ring" to make sure that they were in order to stand the whirring over the rails expected of them. Under the last car the little man found one wheel that did not ring to suit him under the blow of his hammer. He tapped it again, but with no more satisfactory result. Straightening up, he shouted to a couple of assistants who trudged along from the other end of the station.

"Take out those wheels," he ordered when they had reached him. But the conductor of the train, overhearing the order, began to expostulate. In five minutes he was to pull out.

"What's the matter with those wheels?" he demanded of the little man with the hammer.

"Take them out, I say," was the only reply.

"But how are you going to take them out when we leave in a couple of minutes?" demanded the conductor.

"I don't care when you leave," replied the inexorable little man, and turning to his assistants he repeated the order, "Take out those wheels."

At this juncture a man carrying a "grip," and who appeared to be recognized by most every one as a person of authority, stopped on his way toward the forward end of the train on an adjoining track.

"Oh, I guess those wheels will stand the run all right," he said in an authoritative way after the situation had been explained to him.

"Well, your guessing has nothing to do with it," snapped the little man in blue. "Take out those wheels, I say."

Everybody seemed startled at the little man's hot answer, the man to whom it was addressed no less than the others. The engine bell of the latter's train began to ring, however, and he hurried away and swung himself on the back platform.

"Well, you've cooked your goose," muttered the conductor, turning on the resolute little man in blue. "Do you know who that was?"

"No, I don't know. Who was it?"

"No one but the vice president of the road."

"Oh, murther. Was that the vice president? Why didn't you tell me?"

"You talked as if you didn't care, that's why."

A week later the same little man stood in the vice president's office, hat in hand, trembling with fear for his job and with an apology ready on his lips.

"I didn't mean just what I said the other night," he began when he finally got the vice president's ear. "If I had known it was you"—

"What you said what other night?" interrupted the vice president, not recognizing his visitor.

"About taking out the wheels, sir," stuttered the little man in blue.

"Oh, that was all right," good naturedly responded the vice president. "That's all right. You were doing your duty as you understood it. Don't worry about that."

"And anyway," went on the little man, emboldened by the assurances of the vice president, "anyway I can't be supposed to know every fool who comes along and tries to tell me my business."—Chicago Inter Ocean.

RESUMED OPERATIONS.

The Illinois Steel Mills Again Running.

Judge Ricks Decides in Favor of the Pennsylvania Company—Boss Plumbers in Session.

The rolling mills of the Illinois Steel company, located at South Chicago which were shut down December 31, in order to make extensive repairs in the rail and steel departments, opened today with no decrease in the force of men. This gives work to 6,000 employes who have been idle since the shut down.

IMPORTANT RULING IN A DAMAGE CASE

Judge Ricks, of the United States district court at Cleveland, has rendered a decision which is of interest to every railroad man. Harry O. Shaven, sued the Pennsylvania company for $25,000 for personal injuries received as a brakeman. He was a member of the Voluntary Relief association of the Pennsylvania company and received benefits from it. A membership involves the waiving of the right to hold the railroad company liable for any injury for which benefit is received. Shaven's attorneys tried to show that this is illegal. Judge Ricks overruled a motion which had that proposition as its basis.

MANUFACTURERS OF BRASS GOODS HAVE A MEETING.

The Manufacturer's Association of Plumbers' Brass goods, which was organized at Pittsburg last month, began its first annual convention in Cleveland today with representatives present from nearly all sections of the country. The association embraces most of the large manufacturing establishments of plumbers' brass goods in the United States. The most important subjects under consideration are the adjustment of prices, revision of lists and freight rates.

EYE PAINFULLY INJURED.

Charles Waldman, of the Pittsburg boiler shop, narrowly escaped losing one of his eyes yesterday. He was struck with a piece of steel, which cut a gash in the eyelid dangerously near the orbit. Mr. Waldman will be off duty some time.

SECRETARY BURNS SURPRISED.

When Secretary J. W. Burns, of the Railroad department of the Y. M. C. A., came home from South Bend yesterday, he found the Ladies' auxiliary active and was informed that they had arranged to entertain the board of managers at the hall last evening. He immediately began to assist in the preparations, little dreaming that he and his wife were to be the recipients of a surprise and a testimonial of the esteem in which they are held by the members of this department. When all was ready to entertain the "board of managers," Mr. C. H. New-

WORKING FOURTEEN HOURS.

An 80 light arc dynamo left the electric works this morning for Mason City, Iowa.

The Illinois Central's reduced rates on merchandise to southern points are now in effect.

Mrs. D. A. Wolford has improved in health and her husband has resumed his work in the Pittsburg blacksmith shop.

GOWDY WINS.

Knocks Out Nebeker in the Fight

For the Chairmanship of the State Committee.

Nebeker Withdraws Before the Ballot is Taken and Gowdy Captures the Prize.

INDIANAPOLIS, Ind., Jan. 27.—There was an influx of prominent politicians here yesterday and last night from all the outlying districts, and the fight for the republican chairmanship between E. H. Nebeker and John K. Gowdy was waged with renewed vigor, there being arrayed against the latter the whole power of the Harrison machine, which was formed two months ago by E. H. Nebeker, ex United States treasurer; W. D. Owens, ex commissioner of immigration; Captain Hart, ex-auditor of the treasury, and a number of postmasters and others who found employment under Harrison from 1888 to 1892.

Of the thirteen committeemen, five are openly for Gowdy, four for Nebeker and four claim to be unpledged, but at least three of the latter were pledged to Gowdy before they were selected by the district conventions, and it is regarded as significant of the methods which the machine has invoked that they have now come up to the meeting of the committee saying that they will do that which is best for the party.

It is no secret that pledges of positions under the expected republican administration are being offered for votes for Nebeker, and upon these methods his election depends.

NEBEKER WITHDRAWS.

INDIANAPOLIS, Ind., Jan. 28.—The only name that will be presented to the republican state central committee when it meets at 2 o'clock this afternoon to elect a chairman, will be that of John K. Gowdy, of Rushville, who will be re-elected. The long and bitter contest was ended this morning by E. H. Nebeker, the other candidate, who authorized the announcement that his name would not be placed in nomination. This means that Russell Seeds, who has been secretary, will be succeeded by some other man.

TURPIE'S SENTIMENTS.

Turkish Government Should be Destroyed.

"Our Message to the Sultan Should be Followed by a Shot Through the Grand Seraglio."

WASHINGTON, Jan. 28.—Senator Turpie, of Indiana, in presenting a petition concerning Turkish massacres, said in the recent calamities the Armenians were charged with no revolt. They were charged only with being Christians. Their only crime was that they claimed and exercised the right to worship the Divine Creator of the universe. The time has come, said the senator, when there should be an official notification to Turkey and to the Mohammedan church that there has been a decadence in their power to proselyte with the sword. "We have already sent a message," said the senator, referring to the concurrent resolution, but the blow should follow. The message should be followed by a shot which would go crashing through the grand seraglio."

The senator urged that it would be a glorious day when the destruction of this Turkish power was brought about. He would have the messages and demands sent not only to the sultan, but echoed through the mosques and minarets. It should thunder until these murderers learned the power and advance of Christianity. The senator urged that the Christian world might now be called upon to take up another great crusade, driving back the rule of Mohammedanism and establishing the rule of Christianity. Mr. Turpie spoke with great earnestness and vigor, and his remarks attracted much attention.

MILITARY PARK.

The Vicksburg Battlefield Will be Beautified.

WASHINGTON, Jan. 28.—The house committee on military affairs decided today to recommend the creation of a national military park on the Vicksburg battlefield and will report to the house the bill introduced by Mr Catchings. The park contemplated will embrace 1,200 acres where the opposing armies were lined at the siege of Vicksburg. The bill provides for a commission of three to outline the site, to be appointed by the secretary of war, and a secretary and historian. The cost of the land is limited to $50,000, but the entire expense of the park, if the project is carried out, will be half a million.

Fear an Insurrection.

CONSTANTINOPLE, Jan. 28.—The government has taken $600,000 from the official pension fund with which to meet urgent state requirements. The Mauser rifles are to be given to the troops as soon as possible. It is believed this step is due to the fear that an insurrectionary movement in Macedonia is impending.

CRAWFORDSVILLE, Ind., Jan. 28.—Simpson and W. B. Montgomery caused the arrest of William Jacobs on the charge of forgery recently and he was in jail fifteen hours. Now he sues for damages of $1,000 an hour on account of law practice lost while he was behind the bars.

CALL'S SARCASM.

"Regular Committees the Sepulchers of Legislation."

The Resolution for the Investigation of the Arrest of Debs Leads to a Lively Debate.

WASHINGTON, Jan. 28.—Mr. Call's resolution for an investigation of the arrest of Eugene V. Debs came up in the senate this morning and Mr. Call urged immediate action, saying that the laboring interests of the country desired the inquiry. Mr. Hill said that ordinarily he had great respect for the laboring people of the country, but he pointed out that no petitions had come from the representatives of these people; he had never heard that they desired this investigation. It might be that such an inquiry was desirable, but if so, it should be conducted by one of the regularly constituted committees, and not by a special committee. To that end Mr. Hill offered an amendment, directing that the whole subject of contempt of court, as enforced by the federal judiciary be investigated by the committee on judiciary and that a report be made as to what, if any, legislation was necessary. Mr Call dissented to the amendment. "Why is it intended to suppress this inquiry?" he asked. These regular committees were the sepulchers of legislation. If action was to be taken a special committee was the only means of accomplishing it. Mr. Call spoke vigorously upon the indignities and wrongs against Eugene V. Debs because he had ventured to express opinions contrary to those entertained by a court. The senator said this inquiry was vital to the preservation of civil liberty and the inviolability of the personal rights of the individual.

SHOCKING AFFAIR.

A Farmer Commits Suicide in a Horrible Manner.

Climbed Upon a Straw Stack, Sets It on Fire and Then Sends a Bullet in His Brain.

NEW CASTLE, Ind., Jan. 28.—Last evening John P. Morris committed suicide in an unusual and horrifying manner. He lived on a farm near this city and had been addicted to the use of intoxicants for many years, but had lately reformed. This morning he took a revolver and climbed to the top of his straw stack, near his house. He first set fire to the straw and as the flames crept around him he deliberately placed the revolver to one eye and pulled the trigger, sending a bullet into his brain. He fell down in the burning straw, but members of the family rushed to the scene and dragged him out. He was still alive two hours after the shooting, but cannot survive. It is not known what induced him to commit the deed, but it is supposed his despondency over his ill success in attempting to reform caused him to do it. He leaves a wife and several children.

DOUBLE KILLING.

They met on the bank of Shofters lake, simultaneously fired and both shots took effect. Atmore was shot in the head, dying instantly, and Mason was shot in the body, dying in less than an hour.

A BAD NEGRO

Creates Consternation on a Train.

Shoots Into a Crowded Coach.

Kills One Man and Wounds Three Others.

The Brute Overpowered by the Train Crew and Later Hanged by Judge Lynch.

BLUEFIELD, W. Va., Jan. 28.—Alexander Jones, a negro desperado, boarded a passenger train at Keystone last night. He was under the influence of whiskey, very boisterous and quarrelsome. Conductor McCullough came through the cars and after demanding fare from Jones advised him to be quiet. The negro became much incensed and when an attempt was made to eject him he pulled two revolvers from a belt and began firing promiscuously through the train, which was crowded with passengers. He emptied both revolvers and attempted to reload, but was overpowered by trainmen.

When the smoke had cleared away and the excitement had abated it was discovered that W. H. Strother, postmaster at Elkhorn, was shot through the abdomen. The wound resulted in almost instant death.

Conductor McCullough was shot in the side, but not seriously injured, and Peter Rice, a colored miner, was shot through the right breast and probably fatally injured. Jones was incarcerated in the Elkhorn jail to await the arrival of a train which was to convey him to Huntington for safe keeping. The train arrived at 2 a. m. and the officers and prisoner boarded it without molestation. Meanwhile a mob had been organized at Welch, fifteen miles west of Keystone, and had marched to Hemphill, a small station one mile west of Welch. The train was flagged by a danger signal and the mob, numbering 100 men, boarded it and at the point of Winchesters, forced the officers to release the prisoner.

They dragged Jones a short distance to a tree, where he was swung to a limb and his body riddled with bullets, the following note being attached: "This deed was done for the purpose of example and warning to negroes. So beware!" Some of the most prominent and influential citizens of this section composed the mob. Jones, it is alleged, had killed three men prior to his last offense. Excitement is at a high pitch. An effort was made by Jones' friends to rescue him from the angry mob, but proved to be futile. W. H. Strother was one of the best known men in this section and had numerous friends. He had just succeeded Paul Fletcher, who was killed a short time ago, as postmaster at Elkhorn.

CREATED A SENSATION.

The Testimony of An Old Soldier in Court.

To Get an Insurance of $5,000, a Woman Offers $500 for the Killing of Her Husband.

WICHITA, Kas., Jan. 28.—In the trial of F. M. Williamson, charged with murdering Henry H. Leonard to secure the latter's life insurance, Michael Jordan, an old soldier, took the stand and created a sensation.

He swore that Williamson approached him last October, a month before the crime was committed, and suggested that he knew where $500 could easily be made. Williamson told him that he knew of a woman who held a $5,000 insurance policy on the life of Leonard and that she would give $500 of the insurance to any one who would kill him. Williamson then told Jordan all the details of the murderous scheme, and Jordan repeated them in court.

The theory of the state has always been that Williamson consented to a divorce from his wife that she might marry Leonard and under agreement that they would kill Leonard to get the insurance on his life.

VENEZUELAN WOMEN

Establish a Boycott on English Goods.

NEW YORK, Jan. 28.—A dispatch from Caracas, Venezuela, says: Many women here have organized for the protection of Venezuelan interests as against European agression. They announce that they have established a boycott against English goods. The agents of the railroad built by German capitalists say that no abrupt demand has been made by their government in their behalf. They add that the affair has been pending for several months, and that daily conferences have been held with officials of the Venezuelan administration. This was acquiesced in by the German agents in the hope that the matter would be promptly settled.

THEY WANT TO VOTE.

Delegation of Ladies Before the Senate Committee.

Ask for Equal Participation With Men in Shaping Legislation and Political Rights.

WASHINGTON, Jan. 28.—The senate marble room was completely filled today by a delegation of ladies from the National Equal Suffrage association, who appeared before the senate committee on woman's suffrage to present their plea for recognition at the ballot box. Senators Call and Peffer were the only members of the committee present and they were late in arriving. The ladies were all present at 10 o'clock, the hour specified for the meeting. The speakers were presented by Dr. Annie Shaw. They represented the states as follows:

Connecticut, Mrs Elizabeth D. Bacon; Delaware, Mary E. Milligan; District of Columbia, Mrs. Ellen P. Thompson; Illinois, Mrs. Frank Hutchbard; Kentucky, Sally C. Bennett; Maryland, Caroline H. Miller; Massachusetts, Salvnia H. Hatch; Michigan, May S. Knaggs; Minnesota, Julia B. Nelson; Missouri, Mrs Conkling Whitier; New Jersey, Dr Mary Hussey; New York, Mariana W. Chapman; North Carolina, Helen A. Lewis; Oklahoma, Mrs. R. W. Southard; Pennsylvania, Mrs. Blankenburg; Rhode Island, Mrs. Mary Arnold; South Carolina, Virginia D. Young; Vermont, Mary N. Chase; Virginia, Orra Langhorne.

None of the speeches were of more than five minutes duration. The speakers all dwelt upon the right of the female sex to equal participation with men in shaping legislation and almost all of them referred to the injustice of taxing women without allowing them to vote.

Mrs. Thompson, of the District of Columbia, declared that there were 25 per cent. more of educated girls than of educated boys.

Mrs. Hubbard indirectly rasped the committee by declaring that the ladies had shown two of the virtues of statesmanship today, those of punctuality and patience, the reference being to the tardiness or absence of members of the committee.

The delegation also visited the judiciary committee room of the house and made speeches to the committee. The speakers were introduced by Susan B. Anthony and among those who spoke were Henry B. Blackwell, of Boston; Mrs. Saunders, wife of ex-Senator Saunders, of Montana, Elizabeth Yates, of Maine; Dr. Cora S. Eaton, of North Dakota; Mrs. Clara Colby, of the Woman's Tribune; Mrs. Francis A. Williams, a Nevada ranch and mine owner, and Mrs. Caroline M. Eberhard, of Ohio.

They were tried before Judge Heller, who will not render a decision for several days. The court experienced great trouble with witnesses, as they refused either to be sworn or affirm. They said they would violate man's laws if they were contrary to Christ's laws. The other twelve cases will be tried by a jury and will last about three weeks.

KANSAS CITY, Mo., Jan. 28.—Two impecunious young men, said to be from New England, and giving the names of Mason M. Totten and C. T. MYSTERIOUS CASE.

A Woman on Erie Street Drinks Carbolic Acid.

Whether or Not She Attempted Suicide is Not Known, But Circumstances Look That Way.

Last evening a couple of well known east end gentlemen were walking east on Washington street, when at the corner of Comparet and Washington streets they were accosted by a man who was considerably excited. The man inquired almost breathlessly for the nearest doctor and the gentlemen directed him to Dr. Harrod. The inquirer said he was a stranger and knew nothing about where anyone lived in that part of the city, but he started off hurriedly toward Dr. Harrod's house after he had explained a little further. He said a woman had drank carbolic acid and was in a bad condition. A doctor would have to get to her in a hurry. Whether it was with suicidal intent that the woman drank the acid, he did not say.

THE SENTINEL reporter asked Dr. Harrod this morning about the case, but the doctor refused to say anything about it. He said he did not know the woman's name, he did not know why she took the acid, he could not say whether she lived on Erie street or not, and he knew nothing about the case. He said, however, that she was getting along all right when he left her.

Whether or not it was a case of attempted suicide THE SENTINEL has been unable to learn, but the circumstances surrounding the mysterious occurrence would tend to show that it was. It is known that the woman lives on Erie street, but what caused her to drink the acid could not be ascertained.

DEADLY GLANDERS

Found Among Horses Near This City.

Four Killed by the State Veterinarian on Monday.

Startling Discovery Made by Dr. W. F. Myers—Forty Horses Examined and Many Quarantined.

Four horses who were afflicted with genuine cases of glanders were killed by the state health officers yesterday near this city.

The horses were owned by a farmer named Wolf, who lives on his farm, six miles from this city on the Illinois road. A few days ago Dr. W. F. Myers was called to the Wolf farm to examine some horses that were sick. As soon as he saw them he pronounced the disease glanders, one of the most dangerous and contagious of all the diseases which horses are subject to. He immediately notified the state veterinarian of the fact and the latter came to this city yesterday for the purpose of investigating thoroughly.

The state veterinarian and Dr. Myers, together with Fred Myers, the Washington street liveryman, went to the farm. The state official at once called the disease glanders and ordered the four afflicted horses killed. The horses were good farm horses. Mr. Wolf owned seven head of horses, so that when the four had been killed he was left with but three. And it is possible that these three may also have to be killed, as they were with the sick horses and are likely to have contracted the disease, although it has not yet developed in them. They were quarantined and the veterinarians will watch for developments.

About forty head of horses in that same neighborhood were examined by the doctors yesterday. They found no further traces of the disease, but they quarantined some horses that had been with those afflicted in order to prevent, if possible, any spread. Glanders was found in a couple of horses not far from the Wolf farm a year or so ago and the horses were killed. Since that time nothing more was seen of the disease until a few days ago.

The farmers in the entire neighborhood are excited over the discovery of the malady in their midst and they are taking every possible precaution to keep their animals free from the trouble. If any further cases develop they will show themselves within a very few days.

Weber is an old man, being past eighty-three. For a long time he has acted queer, and the folks are positive that his mind has failed him. They could not bear his peculiarities any longer, and they will have a commission of lunacy appointed to decide as to his mental condition. The old man was taken to the county jail. He is also the father of Milton Weber.

NEARLY ASPHYXIATED.

Two Families Have Narrow Escapes From Death.

Mr. and Mrs. Christian Lochrman and Daughter, and H. L. Bates and Family the Sufferers.

Mr. and Mrs. Christian Lochrman and their daughter, aged fourteen years, narrowly escaped death from asphyxiation this morning. The gas from a coal stove escaped and filled their bed rooms early this morning, while they were still in bed, and when Mr. Lochrman's son found them they were unconscious from its effects. He at once called Dr. H. V. Sweringen, who restored his patients to consciousness and at noon, when THE SENTINEL heard from them, they were out of danger.

ANOTHER CASE.

The family of H. L. Bates, of No. 129 West Third street, were nearly asphyxiated by the fumes of burned gas yesterday morning. The flue being filled with soot it did not allow the burned gas to escape. Mr. Bates, not being so badly affected as his wife and baby, with great difficulty restored them to consciousness, when Dr. Stults was called in and prescribed for the family. All are getting along nicely.

DESIGNS ASKED

For the New Covered Police Patrol Wagon.

Board of Public Safety Will Utilize the Best Ideas Submitted by Fort Wayne Manufacturers.

The board of public safety will at the meeting tomorrow evening receive and examine the plans submitted by the several Fort Wayne wagon manufacturers for the new covered patrol wagon, which it is proposed to purchase for the use of the police department. All the wagon makers in the city have been asked to submit the best plans they can conceive and from all these the board will select whatever the members think are the best ideas. It may be that no one complete plan submitted will be adopted, but it is more likely that the board will cull out the best ideas contained in all and use them in making a design for the wagon themselves. Mr. Rossington, of the board, spent yesterday afternoon calling upon the various wagon makers and asking them to submit their designs to the board at Wednesday night's meeting. The board will not ask for bids from outside firms, preferring to have the wagon built in this city by a home manufacturer.

The Studebaker Wagon company, of South Bend, heard that the city intended buying an ambulance, and they sent a number of photographs of ambulances of their manufacture, but the board wants a patrol wagon instead of an ambulance.

It is expected by the board that the wagon will not cost over $400. It may be considerably less. It will weigh but little if any more than the open wagon now in use by the department. The cover will be made of duck cloth or some similar material equally as strong and durable.

The board intends to award the contract for the building of the wagon just as soon as the proper design is decided upon.

TO INVESTIGATE.

A Committee Will Visit Electric Roads in Other Cities.

The citizens' committee which is considering the Fort Wayne and Hicksville electric railroad scheme had a meeting last night. Among other things talked over was the idea of sending a committee to other cities to gather information in regard to the operation of suburban roads. It was finally agreed to send out such a committee and Hon. Charles McCulloch and ex-Mayor Mulder were appointed to take the trip.

These gentlemen leave tomorrow morning and they will visit Detroit and Toledo. They will investigate the manner of building suburban roads, how they are operated, the profits, etc. When they return and make a report the citizens' committee will no doubt base its decision upon what they say.

GOVERNOR PATTISON, of Pennsylvania is looming up as a presidential candidate. If it isn't Matthews, Pattison would be all right.

MAYORALTY candidates will develop rapidly enough as soon as it is known whether we are to have a primary election or a delegate convention.

THE congressional candidates will get a hustle on themselves now that an early convention has been decided on by the district committee.

AND now the free silver people are talking of a party of their own. They would catch some of the members of both the republican and democratic parties.

THE SENTINEL has made arrangements to publish the remarkable story of Mrs. Henry Ward Beecher, entitled, "Light Out of Darkness." It will commence Tuesday, February 4.

DEMOCRATIC voters had better begin to make up their minds whether they favor a primary election or a delegate convention for the purpose of making nominations for the city offices.

THE Indianapolis News wants the state of Indiana to have a flag of its own. What's the matter with the star, spangled banner? It suits us all right. We are for the old flag, first, last and all the time.

CHAIRMAN ALLEN HAMILTON, of the democratic city central committee, has issued a call for a primary election to take place on February 8th for the purpose of voting on the question of holding a delegate convention or a primary election for the nomination of a city ticket and also to select two committeemen from each ward.

LAST WORDS OF LIFE.

Dying Expressions of Noted Men and Women.

Showing Thoughts of Persons Both Good and Wicked—Life's History In a Single Sentence.

The last expression that come from the lips of dying persons are oftentimes very remarkable, but in no instances is this so marked as in the case of the more prominent personages. These star actors upon life's realistic stage have often lived lives far from good or virtuous, but in the last few moments preceding death the visions of their crimes and wrong doings seem to fly away and from their half closed lips come expressions that are beautiful and sublime. This is not only true of the wicked persons recorded in history, but also of men whose deeds have been glorious and with good. In a single sentence many of them have expressed life's history and reveal the secret workings of their innermost thoughts, while others have faced death with terror.

One of the most peaceful deaths of which history has any record was that of George Washington, and his dying words were simply, "It is well." Christopher Columbus said, "Into Thy hands, Oh, Lord, I commend my spirit," while Nero ironically murmured, "Is this your fidelity?"

Following are the most famous dying words of noted men of all times, omitting the scenes around their deathbeds liable to call for such expressions, and the conditions under which they died:

Cromwell—Then I am safe.

Goethe—Let the light enter.

George IV—And this is death?

Byron—I must sleep now.

Thomas Jefferson—I resign my soul to God, my daughter to my country.

Augustus Caesar—Farewell, Livia, and remember our long union.

Mozart—Let me hear those notes so long my solace and delight.

Marie Antoinette—Lord, enlighten and soften the hearts of my executioners. Adieu forever, my dear children, I go to join your father.

Andrew Jackson—What is the matter with my dear children? Do my looks alarm you? Oh, do not cry. Be good children, and we will all meet in heaven.

Benjamin Franklin—A dying man can do nothing easy.

Sir Humphrey Gilbert—We are near heaven by sea as by land.

John Quincy Adams—Independence forever.

Socrates—Crito, we owe a cock to Esculapius, pay it soon, I pray you, and neglect it not.

Richard III.—Not one foot will I fly so long as breath abides within my breast, for He who shaped both the sea and land this day shall end my battles all my life. I will die king of England.

Stonewall Jackson—Let us cross over the river of death and rest under the shade of the trees of heaven.

Bishop Kerr—God's will be done.

Lord Chesterfield—Give Dayrolles a chair.

John Randolph—Remorse! Remorse! Write it! Write it! Larger! Larger!

Isabella of Aragon—Do not weep for me, nor waste your time in fruitless prayers for the salvation of my soul.

Frederick V.—There is not a drop of blood on my hands.

Louis XIV.—I thought that dying had been more difficult.

Lord Tenderden—Gentlemen of the jury, you will now consider you verdict.

William Pitt, the Younger—My country, oh, how I love my country.

Addison to Warwick—I have sent for you to see how a Christian can die.

Mme. Roland—Oh, liberty, how many crimes are committed in thy name.

Sir Walter Scott—Lockhart, I may have but a moment to speak to you. Be a good man. Be virtuous—be religious. Nothing else will give you any comfort when you come to face death as I am now.

Edward VI—Lord, take my spirit.

The Early of Derby—Let the earth be filled with His glory.

Philip Sidney—I would not change my joy for the empire of the world.

Cicero—Here, veteran, if you think it is right, strike.

Michael Angelo—My soul I resign to God, my body to the earth and my worldly possessions to my relatives.

Empress Josephine—I die regretted. I have always desired the happiness of France. I can say with truth that the first wife of Napoleon never caused a tear to flow.

Hood—I am dying out of charity to the undertaker who wishes to urn a lively Hood.

[illegible]—Throw up the window that I may once more see the magnificent scene of nature.

[illegible] Hammond—The Lord make haste.

Gainsborough—We are all going to heaven and Van Dyke is of the company.

Horace Mann—As a dying man I say when you wish to know what you should do, ask yourself what Christ would have done under the same circumstances.

John Kitto—Please ask God to take me soon.

Julius Caesar (after being stabbed by Brutus and immediately preceding his last few gasps)—I have provided for everything in my life except death, and now, alas! I am to die though entirely unprepared.

Patrick Henry—Here is a book (the Bible) worth more than all others ever printed. It is my misfortune never to have found time to read it. I trust in the mercy of God, but I fear it is now too late.

Toplady—It will not be long before God takes me, for no mortal can live after the glories which God has manifested to my soul.

Hayden—God preserve the emperor.

Nelson—I thank God I have done my duty.

King Vespasian—An emperor should die standing.

John Wesley—The best of all is, God is with us.

Maria Wesley—I do not sleep. I wish to meet death awake.

John Locke—I have lived long enough, and I am thankful I have enjoyed a happy life, but, after all, look on this life as nothing better than vanity.

John Keats—I feel the daisies growing over me.

Philip Melancthon—I want nothing, and I am looking for nothing but heaven.

Latimer to Ridley—Be of good comfort, brother, for we shall this day light such a candle in England as by God's grace shall never be put out.

Grattan—I am perfectly resigned. I am surrounded by my family; I have served my country; I have reliance upon God and I am not afraid of the devil.

John Knox—While lying here awaiting death I have meditated upon the state of the church, the spouse of Christ. I have fought against spiritual weakness in high places and I have prevailed; I have tasted of heavenly joy, where presently I shall be. Now, for the last time, I commit my soul, body and spirit into His hands. Welcome death, I feel you coming.

Charles I of England—Remember!

Charles IX of France—Nurse, nurse! what murder! what blood! Oh, I have done wrong. God pardon me!

Princess Charlotte—You made me drunk—pray leave me quiet. I find it affects my head.

John Cross—Oh, Hobbins, Hobbins, how I do love thee.

Demonax the philosopher—You may go home; the show is over.

Fontenelle—I suffer nothing, but feel a sort of difficulty in living longer.

George IV—Whatly, what is this? It is death, my boy. They have deceived me.

Lady [illegible]—Good night.

Irving—If I die I die unto the Lord. Amen.

Louis [illegible] enter now into the house of the Lord.

[illegible] XIV—Why weep ye. Did you think I was immortal? [illegible] (after a pause) I thought dying had been harder.

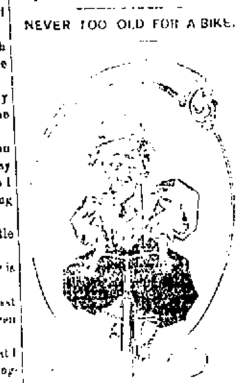

Napoleon—Farewell, France, how I love you. Long may you live.

Mahomet—Oh, Allah, be it so. Henceforth among the glorious host of Paradise.

Matthew Henry—You say you are keeping a record of the sayings of dying men; this is mine: That a life spent in the service of God and communion with Him is the most comfortable and pleasant life that any one can lead in the world.

Alexander Severus, who was a philosopher as well as a great scholar, and had seen nearly all the world during his long life, summed it up in this one sentence on his deathbed: "I have seen all things and all things are of little value." But how much more expressive are these simple words which were last spoken by Christ on the cross: "It is finished."—Pittsburg Dispatch.

NEVER TOO OLD FOR A BIKE.

"I will ne'er grow old,"
Said a new, old maid,
"Tho' for years and years
I've been on the 'sale,
For with bike in hand
All those years seem hid,
And I feel as young
As I ever did."

"Then I never wait
For a man to come,
But I mount my wheel
And for him I hum;
I am then so spry
That I'm like a kid,
And I feel as young
As I ever did."

Henry Lippincott.

Perhaps the "New Woman" will be a stronger woman than the old one. Certainly, fresh air and the right exercise will do much for her. Fresh air is a great restorative, exercise a great nerve tonic if a woman be in condition to take it. A healthy woman can avoid disease. She can avoid the seemingly almost inevitable "weakness" of her sex if she pursues the proper hygienic methods. The same methods will not cure her if she be already sick. Taken under medical direction, in conjunction with the right medicine, they will help [illegible]. No woman who suffers from [illegible] "female weakness" should attempt athletics of any sort. She should first put herself into a condition of strong and hearty health by taking Dr. Pierce's Favorite Prescription. [illegible]

STORY OF THE WRECK.

And a Story Fraught With Bitterest Memories.

The Awful Grandeur—The Terrible Meaning.

Echoes of a Lost Courage—The Star of a Rising Hope.

A decaying wreck on a wave washed shore. Bare ribbed, sun bleached, rotting inch by inch—a perfect picture of utter uselessness.

Is there not a strange analogy between this desolation and the wreck of your own health, your own hopes, your own life?

You are prostrated by physical and nervous weakness, unable to do your work with ease and comfort; every duty is a burden and you are weak, tired, enervated, exhausted. You feel that you are daily growing more and more nervous, you become worried and anxious in mind, blue, disheartened and discouraged. You cannot eat or sleep well, and your liver and bowels are irregular in action.

In fact, you are fast becoming a wreck. You will soon become useless—useless to yourself, useless to your family, useless to the world. And you will lie on the shores of time like the slow decaying ship a burden to your family and friends, an object of pity or contemptuous indifference, while the winds of unfulfilled hopes, desires and ambitions disturb your repose and the waves of bitter and vain regret lash you with the knowledge that you might have been cured if you had only taken your case in time?

What is the moral?

Don't delay!

Delay has sacrificed more lives than war and famine combined. Thousands languish under nervous and physical diseases that are easily and readily curable now. Tomorrow or next week it may be too late, and the sufferer who delays when cure is within grasp is more foolish than the fool, more idiotic than the idiot. If you use Dr Greene's Nervura blood and nerve remedy your cure is assured. It will give you vigor of brain, power of intellect, strength of nerve, create a new digestion, regulate the action of all the organs, invigorate the blood, and restore the weak and run-down system, languishing under its weight of disease, to all its old time health—bounding pulse, elastic step, strong and steady nerves, keen zest of mind and heart, renewed ambition and enjoyment of each hour as it passes.

It did all this for Mr. E. E. Adams, of South Walpole, Mass., who says:

"One year ago I was to speak within bounds, or to tell the truth, all broke up. Could not sleep, and eating was a burden, and for over three months I could not lie down nights on account of rheumatism. Was way down in weight, only about 140 pounds, and did not care if I went up altogether.

"I then, after trying everything heard of and all local doctors, began taking Dr Greene's Nervura blood and nerve remedy, which has done the work. I can sleep all night, eat with the best of them and what I do eat does me good. Nervousness all gone; rheumatism almost forgotten, and my weight 167 pounds, and all with six bottles of nervura. It is the one all-round remedy. I recommend it to everybody. Could give two or three cases that are as high in its praise as I am, through what it has done for me.

"There is no person living who can use Nervura and use it faithfully without being benefited. What it has done for me it will do for others, if its directions are faithfully followed. All praise to Dr. Greene's Nervura."

Use Dr. Greene's Nervura blood and nerve remedy, for it is a physician's prescription, the discovery of our most successful specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th St., New York City, who can be consulted concerning any case without charge, personally or by letter.

This was signed "Clara." The marriage of the young couple had once been postponed, in deference to the opposition of Miss Harris's parents, and another time an elopement had been frustrated.

SIR JOHN WAS WITH JAMESON.

The Plucky Little Soldier Who Was Captured by the Boer Army.

When the Boer army took Dr. Jameson into camp at Krugersdorp in the Transvaal, it also captured Sir John Willoughby, distinguished as the smallest man in the British army. Sir John, however, could be no pluckier if he were 7 feet tall and weighed 300 pounds. He is a baronet of ancient lineage; he owns four beautiful country seats and a vast amount of other property; he is an intimate friend of the Prince of Wales, and he belongs to the swell London clubs, but notwithstanding these facts he prefers to do police duty in the wilds of Africa and command the military forces of the Chartered company. Sir John has distinguished himself by numerous deeds of daring, and he has been in many a tight place, but the probabilities are that he will never forget the day he and Jameson and their small army faced the unerring fire of an overwhelming force of Boers and were finally compelled to hoist the white flag and surrender.

SIR JOHN WILLOUGHBY

A number of years ago Sir John was in command of the British expedition which forced its way up the Zambezi river to Mashonaland, running the gantlet of the Portuguese gunboats and steamers, which vainly endeavored to bar his progress. When he reached Mashonaland, Sir John resented by tearing down the Portuguese flag, imprisoning a colonel and driving the Portuguese out of the country.

Several years ago Sir John found it necessary to discipline a soldier in the Chartered company's service. The offender's name was Grant, and during his court martial he called Willoughby a "blanked little horse marine." After the hearing Grant escaped in the middle of the night, crawled into Sir John's tent, revolver in hand, and ordered Sir John to dress and get his money and accompany him a prisoner to the Transvaal. Once outside the tent, Sir John made a break for liberty, called out the guard and had Grant strung up to a tree. Sir John still retains his commission as captain of the Royal Lifeguards, but he is on the retired list.

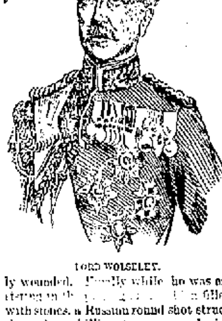

ENGLAND'S FOREMOST WARRIOR.

Lord Wolseley's Wonderful Record as a Fighter In Many Lands.

Lord Wolseley, the battle scarred commander in chief of the British army, seems likely to, in the near future, find more use for his military talents. After 44 years of warfare he is in far worse condition than Brigadier John M. Corse, the gallant defender of Allatoona, Ga., who was "short a cheek bone and an ear, but able to whip all h—l yet," for he is short a cheek bone and an eye and is well covered with other scars of battle.

Field Marshal Viscount Garnet Joseph Wolseley, G. C. B., G. C. M. G., is a descendant of a family of soldiers. He was born near Dublin June 4, 1833, and in 1852, at the age of 19, enlisted as an ensign. He was immediately hurried away to Burma, where he led a storming party to capture the stronghold of a Burmese chief near Bennbow. The assault was successful, but Wolseley was shot through the thigh and for months his life hung by a thread. He was rewarded with a medal and a lieutenancy.

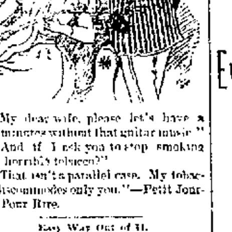

Almost as soon as he was ready for service he found himself in the trenches before Sevastopol, a target for Russian bullets. A round shot carried away part of his clothing, a bullet passed through his cap and he was several times slightly wounded. Finally while he was [illegible] filled with stones, a Russian round shot struck the gabion, killing two sappers beside him, filling his face and body full of bits of stone, destroying the sight of one eye, smashing his knee and shin and crushing his jawbone. When he finally recovered, he found himself a captain at 22 and a Knight of the Legion of Honor.

LORD WOLSELEY.

He was in the hottest of the fight at the second relief of Lucknow in 1857 and at the age of 26 was a lieutenant colonel. In 1860 he assisted in disciplining China. In 1861 he led the British expedition to Canada in anticipation of war over the Trent affair. In 1865 he ran the blockade and visited prominent Confederate generals. In 1873-4 he whipped the king of Ashanti, was made a major general and was given $125,000 by parliament. In 1884-5 he undertook to relieve Gordon at Khartum, but failed through no fault of his own and was elevated to the peerage. He is still in good health at the age of 63 and probably believes with General Corse that he can whip almost anything yet.

to every woman—wash-day and house cleaning time with their grim attendants; "aching back," "low spirits," "tired to death," "worn out," "out of sorts." Why don't you get rid of these things? Use Pearline. There are directions on each package that will show you the latest, safest, quickest, and best ways of washing.

The wonderful success of Pearline (used and talked of by millions of women)—that alone ought to move you to try it. And then a trial means continued use.

ton arose and in a neat little address informed the secretary that he and his wife were the ones to be entertained in particular. He then presented Mr. and Mrs. Burns with a magnificent silver tea service of seven pieces, the gift of their friends. The banquet then proceeded, presided over by A. H. Polhemus as toastmaster, who filled the post with credit and tact. He called on Amos Sine, A. D. Craig, Hiram C. Philley, Mrs. C. Griswold and Miss Mattie Wolford for responses to toasts, which were drank with piping hot coffee. Each of the ladies and gentlemen responded in a happy vein. The menu testified to its being the creation of past masters in the art. The happy affair was brought to a close about 10 o'clock with a prayer offered by the Rev. James Tryhall.

Brakeman T. J. Reardon, of the Nickel Plate, was taken ill Sunday and has since been unable to go out with his crew.

Joseph Haley is sick and during his absence from the cab Engineer C. Merritt will manipulate the throttle of a passenger engine.

Engineers C. F. Braithwait and W. Morris, of the Nickel Plate, are off duty, the former because of sickness and the latter on account of private business.

Conductor Bailey now has a regular run on the Third district of the Nickel Plate, his crew being Brakemen O. B. Ferguson and C. P. Spayd and caboose No. 10,529.

Engineer D. Obey and Fireman R. Copeman now have a regular through freight run on the Third district of the Nickel Plate, and have been assigned to engine 10.

Mr. and Mrs. Alex Wilson have returned from Chicago, where they spent a week very pleasantly. Mr. Wilson, who is a steam fitter, resumed work in the Pittsburg shops today.

A. Brooks and W. L. Hunt, Nickel Plate brakemen who were sick about two weeks, reported for duty yesterday. John Kay did likewise, after a couple of days devoted to private business.

W. F. Fisher and Hugh Piper, of the Pittsburg boiler shop, are the only names on the sick list in that department. Mr. Fisher is better, however, and will probably resume work soon.

Wreck Boss W. A. Maddux, of the Nickel Plate, is taking a few days off duty to attend to his wife, who was badly injured by a fall two or three weeks ago, as mentioned in a previous issue of The Sentinel.

Mr. and Mrs. Christian Scharburg left last evening for Cincinnati, Ohio, where they expect to reside in the future. Mr. Scharburg is a candy maker and for some time had been employed in B. W. Skelton's factory.

W. C. Arp, superintendent of motive power of the Vandalia, has selected as his chief clerk W. H. Barnhart, chief clerk of N. K. Elliott when general superintendent of the Vandalia, the position recently abolished.

The Nickel Plate has placed a switch engine at Knox, the engine crew being Engineer Al Baer and Fireman Thomas Maughn. Several years ago a switch crew was stationed at that point, but business being dull, it was abandoned.

The Lima Northern, a road the Brice syndicate is building, on Saturday reached Malinta with its track, where connection is made with the Toledo, St. Louis and Kansas City, and through trains from Lima to Toledo will soon be running.

The Wabash did a good business yesterday in the way of selling Indianapolis tickets, there being fifteen purchased at this place. Among the buyers were L. C. Hunter, C. R. Higgins, Will Wilson, E. Shaw, S. Wood, C. Kane and W. R. Davis.

A stock train of thirty cars was last week hauled over the Erie road from Port Jarvis to Jersey City, eighty-eight miles, in two hours and forty-two seconds. The Erie is making an aggressive fight in the way of time to secure more of this class of traffic.

The Michigan Central Bridge company, with a capitalization of $2,000,000, was incorporated last week. It is controlled by the Michigan Central, and will build a bridge over the Detroit river at Detroit, which bridge and its approaches will be three miles long.

It is stated that the Lake Shore has got its back up and has given notice that unless the Wabash and Michigan Central ceases paying rebates of from $2 to $3 per car on business out of Chicago, the Lake Shore will withdraw from all agreements in the new traffic association.

Engine 107, one of the new locomotives on the Louisville, New Albany and Chicago, on Friday night hauled one of the through trains from Monon to Indianapolis at the highest speed a regular train was ever hauled over the road. The train was hauled from Delphi to Frankfort, twenty five miles, in twenty-one minutes.

The Panhandle has just built at Columbus, O., a sample cabin car, on suggestions made by trainmen, who live in their cabooses much of the time. It will be brought out for inspection this week. It is larger in every respect than any cabin car yet built, and has many improvements which will be appreciated by trainmen.

Mr. and Mrs. Henry Mennewisch, of Hanna street, celebrated the sixteenth anniversary of their wedding last evening. Twenty-five or thirty guests were present and they passed the evening in playing cards, listening to music and dancing. At 12 o'clock a lunch was served. Mr. Mennewisch is employed in the Pittsburg blacksmith shop.

All except the poverty stricken roads have completed equipping their cars with grabirons, etc., according to the interstate commerce act, and now comes the more extensive improvements, as within the next twelve months all roads must have their cars equipped with couplers which meet the approval of the Motor Car Builders' association. This improvement will cost the roads a large sum of money, although most cars built in the last two years are now properly equipped.

ABSOLUTELY PURE

HE APOLOGIZED.

But His Apology Was Amended at the Last Moment.

Under the great shed of one of Chicago's principal railway stations stood a train about to depart on a far journey into the west, the engine sputtering and trembling under its overcharge of steam. Conductors and brakemen were swinging their lanterns and bustling about full of importance and everything but information. Passengers were scurrying down the long aisles, pulling into the coaches, dropping their bundles into seats and sinking in after them with looks of thankfulness that they had not missed the train and that there was at least a chance to rest.

Outside was a little old man dressed in the grease besmeared uniform of a depot employee swinging carelessly but with the air of supreme importance along the side of the train. He wore on his head a cap of the "tourist" pattern, which had been pulled over his ears so hard and so often that it retained little if any of its original shape. His whiskers were of the "billy goat" cut, and between his teeth was tightly clinched a black clay pipe, on which he pulled complacently. In his right hand he carried a hammer, with which he rapped the car wheels as he passed, carefully listening to the "ring" to make sure that they were in order to stand the whirring over the rails expected of them. Under the last car the little man found one wheel that did not ring to suit him under the blow of his hammer. He tapped it again, but with no more satisfactory result. Straightening up, he shouted to a couple of assistants who trudged along from the other end of the station.

"Take out those wheels," he ordered when they had reached him. But the conductor of the train, overhearing the order, began to expostulate. In five minutes he was to pull out.

"What's the matter with those wheels?" he demanded of the little man with the hammer.

"Take them out, I say," was the only reply.

"But how are you going to take them out when we leave in a couple of minutes?" demanded the conductor.

"I don't care when you leave," replied the inexorable little man, and turning to his assistants he repeated the order, "Take out those wheels."

At this juncture a man carrying a "grip," and who appeared to be recognized by most every one as a person of authority, stopped on his way toward the forward end of the train on an adjoining track.

"Oh, I guess those wheels will stand the run all right," he said in an authoritative way after the situation had been explained to him.

"Well, your guessing has nothing to do with it," snapped the little man in blue. "Take out these wheels, I say."

Everybody seemed startled at the little man's bold answer, the man to whom it was addressed no less than the others. The engine bell of the latter's train began to ring, however, and he hurried away and swung himself on the back platform.

"Well, you've cooked your goose," muttered the conductor, turning on the resolute little man in blue. "Do you know who that was?"

"No, I don't know. Who was it?"

"No one but the vice president of the road."

"Oh, murther. Was that the vice president? Why didn't you tell me?"

"You talked as if you didn't care, that's why."

A week later the same little man stood in the vice president's office, hat in hand, trembling with fear for his job and with an apology ready on his lips.

"I didn't mean just what I said the other night," he began when he finally got the vice president's ear. "If I had known it was you"—

"What you said what other night?" interrupted the vice president, not recognizing his visitor.

"About taking out the wheels, sir," stuttered the little man in blue.

"Oh, that was all right," good naturedly responded the vice president. "That's all right. You were doing your duty as you understood it. Don't worry about that."

"And anyway," went on the little man, emboldened by the assurances of the vice president, "anyway I can't be supposed to know every fool who comes along and tries to tell me my business."—Chicago Inter Ocean.

RESUMED OPERATIONS.

The Illinois Steel Mills Again Running.

Judge Ricks Decides in Favor of the Pennsylvania Company—Boss Plumbers in Session.

The rolling mills of the Illinois Steel company, located at South Chicago which were shut down December 31, in order to make extensive repairs in the rail and steel departments, opened today with no decrease in the force of men. This gives work to 6,000 employes who have been idle since the shut down.

IMPORTANT RULING IN A DAMAGE CASE

Judge Ricks, of the United States district court at Cleveland, has rendered a decision which is of interest to every railroad man. Harry O. Shaven, sued the Pennsylvania company for $25,000 for personal injuries received as a brakeman. He was a member of the Voluntary Relief association of the Pennsylvania company and received benefits from it. A membership involves the waiving of the right to hold the railroad company liable for any injury for which benefit is received. Shaven's attorneys tried to show that this is illegal. Judge Ricks overruled a motion which had that proposition as its basis.

MANUFACTURERS OF BRASS GOODS HAVE A MEETING

The Manufacturer's Association of Plumbers' Brass goods, which was organized at Pittsburg last month, began its first annual convention in Cleveland today with representatives present from nearly all sections of the country. The association embraces most of the large manufacturing establishments of plumbers' brass goods in the United States. The most important subjects under consideration are the adjustment of prices, revision of lists and freight rates.

SECRETARY BURNS SURPRISED.

When Secretary J. W. Burns, of the Railroad department of the Y. M. C. A., came home from South Bend yesterday, he found the Ladies' auxiliary active and was informed that they had arranged to entertain the board of managers at the hall last evening. He immediately began to assist in the preparations, little dreaming that he and his wife were to be the recipients of a surprise and a testimonial of the esteem in which they are held by the members of this department. When all was ready to entertain the "board of managers," Mr. C. H. New-

INDEFINITELY POSTPONED.

The Departure of General Weyler for Cuba.

Havana, Jan. 28.—It is reported unofficially that General Weyler's departure for Cuba has been indefinitely postponed. He sailed from Barcelona for Cadiz yesterday, and forty thousand persons witnessed his embarkation. It was expected that he would sail for Cuba from Cadiz today, or Wednesday, but he may be delayed. Important meetings of the Spanish republicans were held throughout Spain today to discuss the Cuban question and the dissolution of the cortes purposed by the ministers.

GOWDY WINS.

Knocks Out Nebeker in the Fight

For the Chairmanship of the State Committee.

Nebeker Withdraws Before the Ballot is Taken and Gowdy Captures the Prize.

INDIANAPOLIS, Ind., Jan. 27.—There was an influx of prominent politicians here yesterday and last night from all the outlying districts, and the fight for the republican chairmanship between E. H. Nebeker and John K. Gowdy was waged with renewed vigor, there being arrayed against the latter the whole power of the Harrison machine, which was formed two months ago by E. H. Nebeker, ex United States treasurer; W. D. Owens, ex-commissioner of immigration; Captain Hart, ex-auditor of the treasury, and a number of postmasters and others who found employment under Harrison from 1888 to 1892

Of the thirteen committeemen, five are openly for Gowdy, four for Nebeker and four claim to be unpledged, but at least three of the latter were pledged to Gowdy before they were selected by the district conventions, and it is regarded as significant of the methods which the machine has invoked that they have now come up to the meeting of the committee saying that they will do that which is best for the party.

It is no secret that pledges of positions under the expected republican administration are being offered for votes for Nebeker, and upon these methods his election depends.

NEBEKER WITHDRAWS.

INDIANAPOLIS, Ind., Jan. 28.—The only name that will be presented to the republican state central committee when it meets at 2 o'clock this afternoon to elect a chairman, will be that of John K. Gowdy, of Rushville, who will be re-elected. The long and bitter contest was ended this morning by E. H. Nebeker, the other candidate, who authorized the announcement that his name would not be placed in nomination. This means that Russell Seeds, who has been secretary, will be succeeded by some other man.

TURPIE'S SENTIMENTS.

Turkish Government Should be Destroyed.

"Our Message to the Sultan Should be Followed by a Shot Through the Grand Seraglio."

WASHINGTON, Jan. 28.—Senator Turpie, of Indiana, in presenting a petition concerning Turkish massacres, said in the recent calamities the Armenians were charged with no revolt. They were charged only with being Christians. Their only crime was that they claimed and exercised the right to worship the Divine Creator of the universe. The time has come, said the senator, when there should be an official notification to Turkey and to the Mohammedan church that there has been a decadence in their power to proselyte with the sword. "We have already sent a message," said the senator, referring to the concurrent resolution, but the blow should follow. The message should be followed by a shot which would go crashing through the grand seraglio."

The senator urged that it would be a glorious day when the destruction of this Turkish power was brought about. He would have the messages and demands sent not only to the sultan, but echoed through the mosques and minarets. It should thunder until these murderers learned the power and advance of Christianity. The senator urged that the Christian world might now be called upon to take up another great crusade, driving back the rule of Mohammedanism and establishing the rule of Christianity. Mr. Turpie spoke with great earnestness and vigor, and his remarks attracted much attention.

MILITARY PARK.

The Vicksburg Battlefield Will be Beautified.

WASHINGTON, Jan. 28—The house committee on military affairs decided today to recommend the creation of a national military park on the Vicksburg battlefield and will report to the house the bill introduced by Mr Catchings. The park contemplated will embrace 1,200 acres where the opposing armies were lined at the siege of Vicksburg. The bill provides for a commission of three to outline the site, to be appointed by the secretary of war, and a secretary and historian. The cost of the land is limited to $50,000, but the entire expense of the park, if the project is carried out, will be half a million.

Fear an Insurrection.

CONSTANTINOPLE, Jan. 28—The government has taken £600,000 from the official pension fund with which to meet urgent state requirements. The Mauser rifles are to be given to the troops as soon as possible. It is believed this step is due to the fear that an insurrectionary movement in Macedonia is impending.

CALL'S SARCASM.

"Regular Committees the Sepulchers of Legislation."

The Resolution for the Investigation of the Arrest of Debs Leads to a Lively Debate.

WASHINGTON, Jan. 28—Mr. Call's resolution for an investigation of the arrest of Eugene V. Debs came up in the senate this morning and Mr Call urged immediate action, saying that the laboring interests of the country desired the inquiry. Mr. Hill said that ordinarily he had great respect for the laboring people of the country, but he pointed out that no petitions had come from the representatives of these people; he had never heard that they desired this investigation. It might be that such an inquiry was desirable, but if so, it should be conducted by one of the regularly constituted committees, and not by a special committee. To that end Mr. Hill offered an amendment, directing that the whole subject of contempt of court, as enforced by the federal judiciary be investigated by the committee on judiciary and that a report be made as to what, if any, legislation was necessary. Mr. Call dissented to the amendment. "Why is it intended to suppress this inquiry?" he asked. These regular committees were the sepulchers of legislation. If action was to be taken a special committee was the only means of accomplishing it. Mr. Call spoke vigorously upon the indignities and wrongs against Eugene V. Debs because he had ventured to express opinions contrary to those entertained by a court. The senator said this inquiry was vital to the preservation of civil liberty and the inviolability of the personal rights of the individual.

SHOCKING AFFAIR.

A Farmer Commits Suicide in a Horrible Manner.

Climbed Upon a Straw Stack, Sets It on Fire and Then Sends a Bullet in His Brain.

NEW CASTLE, Ind., Jan. 28—Last evening John P. Morris committed suicide in an unusual and horrifying manner. He lived on a farm near this city and had been addicted to the use of intoxicants for many years, but had lately reformed. This morning he took a revolver and climbed to the top of his straw stack, near his house. He first set fire to the straw and as the flames crept around him he deliberately placed the revolver to one eye and pulled the trigger, sending a bullet into his brain. He fell down in the burning straw, but members of the family rushed to the scene and dragged him out. He was still alive two hours after the shooting, but cannot survive. It is not known what induced him to commit the deed, but it is supposed his despondency over his ill success in attempting to reform caused him to do it. He leaves a wife and several children.

DOUBLE KILLING.

Two Farmers Quarrel About a Piece of Land.

FORT WORTH, Texas, Jan. 28.—News reached this city today of a double killing at Shofters lake, Andrews county. Crick Atmore and Wils Mason quarreled over a section of school land both wanted and came to blows, after which both went home, got Winchesters and went on a hunt for each other. They met on the bank of Shofters lake, simultaneously fired and both shots took effect. Atmore was shot in the head, dying instantly, and Mason was shot in the body, dying in less than an hour.

SAN FRANCISCO, Jan. 28—The committee appointed to consider the charges of immorality against Rev. Dr. C O. Brown, pastor of the First Congregational church, in this city, has refused to act on the ground that it has no power. A BAD NEGRO

Creates Consternation on a Train.

Shoots Into a Crowded Coach.

Kills One Man and Wounds Three Others.

The Brute Overpowered by the Train Crew and Later Hanged by Judge Lynch.

BLUEFIELD, W. VA., Jan. 28—Alexander Jones, a negro desperado, boarded a passenger train at Keystone last night. He was under the influence of whiskey, very boisterous and quarrelsome. Conductor McCullough came through the cars and after demanding fare from Jones advised him to be quiet. The negro became much incensed and when an attempt was made to eject him he pulled two revolvers from a belt and began firing promiscuously through the train, which was crowded with passengers. He emptied both revolvers and attempted to reload, but was overpowered by trainmen.

When the smoke had cleared away and the excitement had abated it was discovered that W. H. Strother, postmaster at Elkhorn, was shot through the abdomen. The wound resulted in almost instant death.

Conductor McCullough was shot in the side, but not seriously injured, and Peter Rice, a colored miner, was shot through the right breast and probably fatally injured. Jones was incarcerated in the Elkhorn jail to await the arrival of a train which was to convey him to Huntington for safe keeping. The train arrived at 2 a. m. and the officers and prisoner boarded it without molestation. Meanwhile a mob had been organized at Welch, fifteen miles west of Keystone, and had marched to Hemphill, a small station one mile west of Welch. The train was flagged by a danger signal and the mob, numbering 100 men, boarded it and at the point of Winchesters, forced the officers to release the prisoner.

They dragged Jones a short distance to a tree, where he was swung to a limb and his body riddled with bullets, the following note being attached: "This deed was done for the purpose of example and warning to negroes. So be ware!" Some of the most prominent and influential citizens of this section composed the mob. Jones, it is alleged, had killed three men prior to his last offense. Excitement is at a high pitch. An effort was made by Jones' friends to rescue him from the angry mob, but proved to be futile. W. H. Strother was one of the best known men in this section and had numerous friends. He had just succeeded Paul Fletcher, who was killed a short time ago, as postmaster at Elkhorn.

CREATED A SENSATION.

The Testimony of An Old Soldier in Court.

To Get an Insurance of $5,000, a Woman Offers $500 for the Killing of Her Husband.

WICHITA, Kas., Jan. 28—In the trial of F. M. Williamson, charged with murdering Henry H. Leonard to secure the latter's life insurance, Michael Jordan, an old soldier, took the stand and created a sensation.

He swore that Williamson approached him last October, a month before the crime was committed, and suggested that he knew where $500 could easily be made. Williamson told him that he knew of a woman who held a $5,000 insurance policy on the life of Leonard and that she would give $500 of the insurance to any one who would kill him. Williamson then told Jordan all the details of the murderous scheme, and Jordan repeated them in court.

The theory of the state has always been that Williamson consented to a divorce from his wife that she might marry Leonard and under agreement that they would kill Leonard to get the insurance on his life.

BEARISH WHEAT NEWS.

Everything Combines to Break Down Prices.

Heavy Receipts and Unfavorable Cables Have a Tendency to Weaken the Market.

CHICAGO, Jan. 28.—Early wheat news was bearish, as a rule, and May opened at 64½c, about yesterday's closing, sold off to 63⅞c.

Cables come fractionally lower, and the northwest receipts were again large, but the world's weekly shipment were much smaller than expected. Corn easier with the weakness in wheat. May corn opened unchanged at 30⅛c, and sold off to 29⅞@30c.

Oats opened fractionally higher, at 21⅛@21¼c. Trade was slow and the price fell away to 20⅞@21c.

Provisions opened weak, at recessions on the lower hog prices and sympathy with wheat.

Pork opened 7½c lower at $10 85, and sold to $10 80.

Lard 5c lower, at $6 05, and declined to $5 97½.

VENEZUELAN WOMEN

Establish a Boycott on English Goods.

NEW YORK, Jan. 28.—A dispatch from Caracas, Venezuela, says: Many women here have organized for the protection of Venezuelan interests as against European agression. They announce that they have established a boycott against English goods. The agents of the railroad built by German capitalists say that no abrupt demand has been made by their government in their behalf. They add that the affair has been pending for several months, and that daily conferences have been held with officials of the Venezuelan administration. This was acquiesced in by the German agents in the hope that the matter would be promptly settled.

THEY WANT TO VOTE.

Delegation of Ladies Before the Senate Committee.

Ask for Equal Participation With Men in Shaping Legislation and Political Rights.

WASHINGTON, Jan. 28.—The senate marble room was completely filled today by a delegation of ladies from the National Equal Suffrage association, who appeared before the senate committee on woman's suffrage to present their plea for recognition at the ballot box. Senators Call and Peffer were the only members of the committee present and they were late in arriving. The ladies were all present at 10 o'clock, the hour specified for the meeting. The speakers were presented by Dr. Annie Shaw. They represented the states as follows:

Connecticut, Mrs. Elizabeth D. Bacon; Delaware, Mary E Milligan; District of Columbia, Mrs. Ellen P. Thompson, Illinois, Mrs. Frank Hatchbard; Kentucky, Sally C. Bennett; Maryland, Caroline H. Miller, Massachusetts, Salvinia H. Hatch; Michigan, May S. Knagge. Minnesota, Julia B. Nelson; Missouri, Mrs. Conkling Whitler; New Jersey, Dr. Mary Hussey; New York, Mariana W. Chapman, North Carolina, Helen A. Lewis, Oklahoma, Mrs. R W. Southard, Pennsylvania, Mrs. Blankenburg; Rhode Island, Mrs. Mary Arnold, South Carolina, Virginia D. Young; Vermont, Mary N. Chase; Virginia, Orra Langhorne.

None of the speeches were of more than five minutes duration. The speakers all dwelt upon the right of the female sex to equal participation with men in shaping legislation and almost all of them referred to the injustice of taxing women without allowing them to vote.

Mrs. Thompson, of the District of Columbia, declared that there were 25 per cent. more of educated girls than of educated boys.

Mrs. Hubbard indirectly rasped the committee by declaring that the ladies had shown two of the virtues of statesmanship today, those of punctuality and patience, the reference being to the tardiness or absence of members of the committee.

The delegation also visited the judiciary committee room of the house and made speeches to the committee. The speakers were introduced by Susan B. Anthony and among those who spoke were Henry B. Blackwell, of Boston; Mrs. Saunders, wife of ex-Senator Saunders, of Montana; Elizabeth Yates, of Maine; Dr. Cora S. Eaton, of North Dakota; Mrs. Clara Colby, of the Woman's Tribune; Mrs. Francis A. Williams, a Nevada ranch and mine owner, and Mrs. Caroline M. Eberhard, of Ohio.

TACOMA, Wash., Jan. 28—Latest advices from China tell of the uttering by Chinese forgers on the island of Java, of $3,000,000 of Java bank notes. In order to get notes accepted forged notary acceptances were placed on them. Already six hundred thousand pounds of forged and discounted notes have been discovered, and many prominent Chinese merchants have been placed under arrest, including Captain Chin, one of the wealthiest Chinamen in Java. It is believed by the police that the forgeries were completed in Singapore. Kewe Chee Soe, a native of China, now a resident of Sourabaya, and a band of native etchers have been arrested. Soe has confessed to having committed the forgeries, and implicates many others, all of whom insist they are innocent.

AMISH ON TRIAL

For Unlawfully Solemnizing Marriages at Decatur.

DECATUR, Ind., Jan. 28.—The case against the Amish church members was called for trial in the circuit court here yesterday. Three cases were tried, two against Jacob Swartz on a charge of solemnizing marriages of first cousins and marrying without a license, and against David Swartz for unlawfully solemnizing marriages. They were tried before Judge Heller, who will not render a decision for several days. The court experienced great trouble with witnesses, as they refused either to be sworn or affirm. They said they would violate man's laws if they were contrary to Christ's laws. The other twelve cases will be tried by a jury and will last about three weeks.

Two Men are Dead and Two are Wounded.

JEFFERSON, Cal., Jan. 28.—As a result of a desperate fight yesterday two men are dead, two desperately wounded and a young lady seriously hurt. The killed are John Brown, jr., and John Fleck. SWINDLERS ARRESTED.

Their Victims Rich Stores of Denver and St. Louis.

KANSAS CITY, Mo., Jan 28—Two impecunious young men, said to be from New England, and giving the names of Mason M. Totten and C. T. Holliday, have been arrested here by postoffice inspectors from Denver and St Louis. They are accused of having used the United States mails in swindling several mining stock brokers of Denver. Their plan, operating from Kansas City, was to send urgent requests by mail for certain mining stocks, enclosing checks on Kansas City banks covering the market value of the shares asked for. Neither of the men had a cent in bank here.

MYSTERIOUS CASE.

A Woman on Erie Street Drinks Carbolic Acid.

Whether or Not She Attempted Suicide is Not Known, But Circumstances Look That Way.

Last evening a couple of well known east end gentlemen were walking east on Washington street, when at the corner of Comparet and Washington streets they were accosted by a man who was considerably excited. The man inquired almost breathlessly for the nearest doctor and the gentlemen directed him to Dr. Harrod. The inquirer said he was a stranger and knew nothing about where anyone lived in that part of the city, but he started off hurriedly toward Dr. Harrod's house after he had explained a little further. He said a woman had drank carbolic acid and was in a bad condition. A doctor would have to get to her in a hurry. Whether it was with suicidal intent that the woman drank the acid, he did not say.

THE SENTINEL reporter asked Dr. Harrod this morning about the case, but the doctor refused to say anything about it. He said he did not know the woman's name, he did not know why she took the acid; he could not say whether she lived on Erie street or not, and he knew nothing about the case. He said, however, that she was getting along all right when he left her.

Whether or not it was a case of attempted suicide THE SENTINEL has been unable to learn, but the circumstances surrounding the mysterious occurrence would tend to show that it was. It is known that the woman lives on Erie street, but what caused her to drink the acid could not be ascertained.

DEADLY GLANDERS

Found Among Horses Near This City.

Four Killed by the State Veterinarian on Monday.

Startling Discovery Made by Dr. W. F. Myers—Forty Horses Examined and Many Quarantined.

Four horses who were afflicted with genuine cases of glanders were killed by the state health officers yesterday near this city

The horses were owned by a farmer named Wolf, who lives on his farm, six miles from this city on the Illinois road. A few days ago Dr. W. F. Myers was called to the Wolf farm to examine some horses that were sick. As soon as he saw them he pronounced the disease glanders, one of the most dangerous and contagious of all the diseases which horses are subject to. He immediately notified the state veterinarian of the fact and the latter came to this city yesterday for the purpose of investigating thoroughly.

The state veterinarian and Dr. Myers, together with Fred Myers, the Washington street liveryman, went to the farm. The state official at once called the disease glanders and ordered the four afflicted horses killed. The horses were good farm horses. Mr. Wolf owned seven head of horses, so that when the four had been killed he was left with but three. And it is possible that these three may also have to be killed, as they were with the sick horses and are likely to have contracted the disease, although it has not yet developed in them. They were quarantined and the veterinarians will watch for developments.

About forty head of horses in that same neighborhood were examined by the doctors yesterday. They found no further traces of the disease, but they quarantined some horses that had been with those afflicted in order to prevent, if possible, any spread. Glanders was found in a couple of horses not far from the Wolf farm a year or so ago and the horses were killed. Since that time nothing more was seen of the disease until a few days ago.

The farmers in the entire neighborhood are excited over the discovery of the malady in their midst and they are taking every possible precaution to keep their animals free from the trouble. If any further cases develop they will show themselves within a very few days

News and Notes From Courts and Offices.

Police Court—Horse Taken Up—Garbage Bids Opened—An Old Man's Queer Actions.

The only cases in police court this morning were a couple of plain, unornamented drunks. They were John Smith and James Crabb. Both went to jail.

OLD MAN'S STRANGE ACTIONS.

Frederick Weber, who for some time has been making his home with his daughter, Mrs. John Carl, on the corner of Calhoun and Chestnut streets, was taken to the police station this morning by Officer Flickinger. Weber is an old man, being past eighty-three. For a long time he has acted queer, and the folks are positive that his mind has failed him. They could not bear his peculiarities any longer, and they will have a commission of lunacy appointed to decide as to his mental condition. The old man was taken to the county jail. He is also the father of Milton Weber.

TOOK UP A HORSE.

Officer Harkenrider took up a horse and buggy that was found alone on Main street last night. The outfit was taken to the livery stable at No. 55 East Main street and the officers are trying to find out who it belongs to.

HAS GRIPPE.

For two or three days Deputy Comptroller John Evans has had a cold that made him feel like a cold storage warehouse. He tried to fight it off, but it got the best of him and today he was down sick. He was confined to his home, and feeling about as bad as a case of grippe generally makes a man feel.

Miller $95, John Steger, $90, G. W. Haskell, $67 50, Jacob C. Hess, $70, John O'Hara, $78, Chris. Robinson, $80, Harry Schaefer, $77, Henry Schelo, $85, Frank Dreier, $70, M Singleton, $78, G. A. Lunz, $75.

NEARLY ASPHYXIATED.

Two Families Have Narrow Escapes From Death.

Mr. and Mrs. Christian Loehrman and Daughter, and H. L. Bates and Family the Sufferers.

Mr. and Mrs. Christian Loehrman and their daughter, aged fourteen years, narrowly escaped death from asphyxiation this morning. The gas from a coal stove escaped and filled their bed rooms early this morning, while they were still in bed, and when Mr. Loehrman's son found them they were unconscious from its effects. He at once called Dr. H. V. Sweringen, who restored his patients to consciousness and at noon, when THE SENTINEL heard from them, they were out of danger.

ANOTHER CASE.

The family of H. L. Bates, of No. 129 West Third street, were nearly asphyxiated by the fumes of burned gas yesterday morning. The flue being filled with soot it did not allow the burned gas to escape. Mr. Bates, not being as badly affected as his wife and baby, with great difficulty restored them to consciousness, when Dr Stults was called in and prescribed for the family. All are getting along nicely.

DESIGNS ASKED

For the New Covered Police Patrol Wagon.

Board of Public Safety Will Utilize the Best Ideas Submitted by Fort Wayne Manufacturers.

The board of public safety will at the meeting tomorrow evening receive and examine the plans submitted by the several Fort Wayne wagon manufacturers for the new covered patrol wagon, which it is proposed to purchase for the use of the police department. All the wagon makers in the city have been asked to submit the best plans they can conceive and from all these the board will select whatever the members think are the best ideas. It may be that no one complete plan submitted will be adopted, but it is more likely that the board will cull out the best ideas contained in all and use them in making a design for the wagon themselves. Mr. Rossington, of the board, spent yesterday afternoon calling upon the various wagon makers and asking them to submit their designs to the board at Wednesday night's meeting. The board will not ask for bids from outside firms, preferring to have the wagon built in this city by a home manufacturer.

The Studebaker Wagon company, of South Bend, heard that the city intended buying an ambulance, and they sent a number of photographs of ambulances of their manufacture, but the board wants a patrol wagon instead of an ambulance.

It is expected by the board that the wagon will not cost over $400. It may be considerably less. It will weigh but little if any more than the open wagon now in use by the department. The cover will be made of duck cloth or some similar material equally as strong and durable.

The board intends to award the contract for the building of the wagon just as soon as the proper design is decided upon.

TO INVESTIGATE.

A Committee Will Visit Electric Roads of Other Cities.

The citizens' committee which is considering the Fort Wayne and Hicksville electric railroad scheme had a meeting last night. Among other things talked over was the idea of sending a committee to other cities to gather information in regard to the operation of suburban roads. It was finally agreed to send out such a committee and Hon. Charles McCulloch and ex-Mayor Muhler were appointed to take the trip.

These gentlemen leave tomorrow morning and they will visit Detroit and Toledo. They will investigate the manner of building suburban roads, how they are operated, the profits, etc. When they return and make a report the citizens' committee will no doubt base its decision upon what they say.

Alexander Severus, who was a philosopher as well as a great scholar, and had seen nearly all the world during his long life, summed it up in this one sentence on his deathbed: "I have seen all things and all things are of little value." But how much more expressive are these simple words which were last spoken by Christ on the cross: "It is finished."—Pittsburg Dispatch.

NEVER TOO OLD FOR A BIKE.

"I will never grow old,"
Said a new old maid,
"Tho' for years and years
I've been upon the table.
For with bike in hand
All those years seem hid,
And I feel as young
As I ever did.

"Then I never wait
For a man to come,
But I mount my wheel
And for hired hand:
I am then so spry
That I'm like a kid,
And I feel as young
As I ever did."

STORY OF THE WRECK.

And a Story Fraught With Bitterest Memories.

The Awful Grandeur—The Terrible Meaning.

Echoes of a Lost Courage—The Star of a Rising Hope.

A stranded wreck on a wave washed shore. Fire ritched, sun bleached, rotting inch by inch—a perfect picture of utter uselessness.

Is there not a strange analogy between this illustration and the wreck of your own health, your own hopes, your own life?

You are prostrated by physical and nervous weakness, unable to do your work with ease and comfort, every duty is a burden and you are weak, tired, unrested, exhausted. You feel that you are daily growing more and more nervous, you become worried and anxious in mind, blue, disheartened and discouraged. You cannot eat or sleep well, and your liver and bowels are irregular in action.

In fact, you are fast becoming a wreck. You will soon become useless—useless to yourself, useless to your family, useless to the world. And you will lie on the shores of time like the slow decaying ship, a burden to your family and friends, an object of pity or contemptuous indifference, while the winds of unfulfilled hopes, desires and ambitions disturb your repose and the waves of bitter and vain regret lash you with the knowledge that you might have been cured if you had only taken your case in time!

What is the moral?

Don't delay!

Delay has sacrificed more lives than war and famine combined. Thousands languish under nervous and physical diseases that are easily and readily curable now. Tomorrow or next week it may be too late, and the sufferer who delays when cure is within grasp is more foolish than the fool, more idiotic than the idiot. If you use Dr. Greene's Nervura blood and nerve remedy your cure is assured. It will give you vigor of brain, power of intellect, strength of nerve, create a new digestion, regulate the action of all the organs, invigorate the blood, and restore the weak and run down system, languishing under its weight of disease, to all its old time health—bounding pulse, elastic step, strong and steady nerves, keen zest of mind and heart, renewed ambition and enjoyment of each hour as it passes.

It did all this for Mr. E. E. Adams, of South Walpole, Mass., who says:

"One year ago I was to speak within bounds, or to tell the truth, all broke up. Could not sleep, and eating was a burden, and for over three months I could not lie down nights on account of rheumatism. Was way down in weight, only about 140 pounds, and did not care if I went up altogether.

"I then, after trying everything heard of and all local doctors, began taking Dr. Greene's Nervura blood and nerve remedy, which has done the work. I can sleep all night, eat with the best of them and what I do eat does me good. Nervousness all gone, rheumatism almost forgotten, and my weight 161 pounds, and all with six bottles of nervura. It is the one all round remedy. I recommend it to everybody. Could give two or three cases that are as high in its praise as I am, through what it has done for me.

"There is no person living who can use Nervura and use it faithfully without being benefited. What it has done for me it will do for others, if its directions are faithfully followed. All praise to Dr. Greene's Nervura."

Use Dr. Greene's Nervura blood and nerve remedy, for it is a physician's prescription, the discovery of our most successful specialist in curing nervous and chronic diseases. [illegible] WAS WITH JAMESON.

The Plucky Little Soldier Who Was Captured by the Boer Army.

When the Boer army took Dr. Jameson prisoner [illegible] in the Transvaal, it also captured Sir John Willoughby, the largest as well as the smallest man in the Boer army. Sir John, however, could be no plucker if he were 7 feet tall and weighed 300 pounds. He is a baronet of ancient lineage, he owns four beautiful country seats and a vast amount of other property. He is an intimate friend of the Prince of Wales, and he belongs to the swell London clubs, but notwithstanding these facts he prefers to do his duty in the wilds of Africa and command the military forces of the Chartered company. Sir John has distinguished himself by numerous deeds of daring, and he has been in many a tight place, but the probabilities are that he will never forget the day he and Jameson and their small army faced the unerring fire of an overwhelming force of Boers and were finally compelled to hoist the white flag and surrender.

A number of years ago Sir John was in command of the British expedition which forced its way up the Zambezi river to Mashonaland, running the gantlet of the Portuguese gunboats and steamers, which vainly endeavored to bar his progress. When he reached Mashonaland, Sir John retorted by tearing down the Portuguese flag, imprisoning a colonel and driving the Portuguese out of the country.

Several years ago Sir John found it necessary to discipline a soldier in the Chartered company's service. The offender's name was Grant, and during his court martial he called Willoughby a "blanked little horse marine." After the hearing Grant escaped in the middle of the night, crawled into Sir John's tent, revolver in hand, and ordered Sir John to dress and get his money and accompany him a prisoner to the Transvaal. Once outside the tent, Sir John made a break for liberty, called out the guard and had Grant strung up to a tree. Sir John still retains his commission as captain of the Royal Life guards, but he is on the retired list.

ENGLAND'S FOREMOST WARRIOR.

Lord Wolseley's Wonderful Record as a Fighter in Many Lands.

Lord Wolseley, the battle scarred commander in chief of the British army, seems likely to, in the near future, find more use for his military talents. After 44 years of warfare he is in far worse condition than Brigadier John M. Corse, the gallant defender of Allatoona, Ga., who was "shot a cheek bone and an ear, but able to whip all h—l yet," for he is short a cheek bone and an eye and is well covered with other scars of battle.

Field Marshal Viscount Garnet Joseph Wolseley, G. C. B., G. C. M. G., is a descendant of a family of soldiers. He was born near Dublin June 4, 1833, and in 1852, at the age of 19, enlisted as an ensign. He was immediately hurried away to Burma, where he led a storming party to capture the stronghold of a Burmese chief near Donabew. The assault was successful, but Wolseley was shot through the thigh and for months his life hung by a thread. He was rewarded with a medal and a lieutenancy.

Almost as soon as he was ready for service he found himself in the trenches before Sebastopol, a target for Russian bullets. A round shot carried away part of his clothing, a bullet passed through his cap and he was several times slight-

ly wounded. [illegible] he was assisted [illegible] with stones, a Russian round shot struck the gabion, killing two sappers beside him, filling his face and body full of bits of stone, destroying the sight of one eye, smashing his knee and shin and crushing his jawbone. When he finally recovered, he found himself a captain at 22 and a Knight of the Legion of Honor.

He was in the hottest of the fight at the second relief of Lucknow in 1857 and at the age of 26 was a lieutenant [illegible]. In 1860 he assisted in disciplining China. In 1861 he led the British expedition to Canada in anticipation of war over the Trent affair. In 1862 he ran the blockade and visited prominent Confederate generals. In 1873-4 he whipped the King of Ashanti, was made a major general and was given $125,000 by parliament. In 1884-5 he undertook to relieve Gordon at Khartoum, but failed [illegible] and was elevated to the peerage. He is still in [illegible] at the age of 63 and probably believes with General Corse that he [illegible] anything yet.

He then presented Mr. and Mrs. Burns with a handsome silver tea service of seven pieces, the gift of their friends. The banquet then proceeded, presided over by A. H. The Panhandle has just built at Columbus, O., a sample cabin car, on suggestions made by trainmen, who live in their cabooses much of the time. It will be brought out for inspection this week. All except the poverty stricken roads have completed equipping their cars with grabirons, etc., according to the interstate commerce act, and now comes the more extensive improvements as within the next twelve months all roads must have their cars equipped with couplers which meet the approval of the Motor Car Builders' association. This improvement will cost the roads a large sum of money although most cars built in the last two years are now properly equipped.

ABSOLUTELY PURE

HE APOLOGIZED

But His Apology Was Amended at the Last Moment.

Under the great shed of one of Chicago's principal railway stations ... a train about to start on a far journey into the west, the engine sputtering and trembling under its overcharge of steam. Conductors and brakemen were swinging their lanterns and ... an air of importance and excitement ... Passengers were scurrying down the long aisles, pulling into the coaches, dropping their bundles into seats and ... looks of thankfulness that they had not missed the train and that there was at least a chance to rest.

Outside was a little old man dressed in the grease besmeared uniform of a depot employee swinging carelessly up with the air of supreme importance along the side of the train. He wore on his head a cap of the "round" pattern, which had been pulled over his ears so hard and so often that it became little if any of its original shape. His whiskers were of the "billy goat" cut, and between his teeth was tightly clenched a black clay pipe, on which he puffed complacently. In his right hand he carried a hammer, with which he tapped the car wheels as he passed, carefully listening for the "ring" to make sure that they were in order to stand the whirring over the rails expected of them. Under the last car the little man found one wheel that did not ring to suit him under the blow of his hammer. He tapped it again, but with no more satisfactory result. Straightening up, he shouted to a couple of assistants who trudged along from the other end of the station.

"Take out those wheels," he ordered when they had reached him. But the conductor of the train, overhearing the order, began to expostulate. In five minutes he was to pull out.

"What's the matter with those wheels?" he demanded of the little man with the hammer.

"Take them out, I say," was the only reply.

"But how are you going to take them out when we leave in a couple of minutes?" demanded the conductor.

"I don't care when you leave," replied the inexorable little man, and turning to his assistants he repeated the order, "Take out those wheels."

At this juncture a man carrying a "grip," and who appeared to be recognized by most every one as a person of authority, stepped on his way toward the forward end of the train on an adjoining track.

"Oh, I guess those wheels will stand the run all right," he said in an authoritative way after the situation had been explained to him.

"Well, your guessing has nothing to do with it," snapped the little man in blue. "Take out those wheels, I say."

Everybody seemed startled at the little man's hot answer, the man to whom it was addressed no less than the others. The engine bell of the latter's train began to ring, however, and he hurried away and swung himself on the back platform.

"Well, you've cooked your goose," muttered the conductor, turning on the resolute little man in blue. "Do you know who that was?"

"No, I don't know. Who was it?"

"No one but the vice president of the road."

"Oh, murther. Was that the vice president? Why didn't you tell me?"

"You talked as if you didn't care, that's why."

A week later the same little man stood in the vice president's office, hat in hand, trembling with fear for his job and with an apology ready on his lips.

"I didn't mean just what I said the other night," he began when he finally got the vice president's ear. "If I had known it was you"—

"What you said what other night?" interrupted the vice president, not recognizing his visitor.

"About taking out the wheels, sir," stuttered the little man in blue.

"Oh, that was all right," good naturedly responded the vice president. "That's all right. You were doing your duty as you understood it. Don't worry about that."

"And anyway," went on the little man, emboldened by the assurances of the vice president, "anyway I can't be supposed to know every fool who comes along and tries to tell me my business."—Chicago Inter Ocean.

RESUMED OPERATIONS.

The Illinois Steel Mills Again Running.

Judge Ricks Decides in Favor of the Pennsylvania Company—Boss Plumbers in Session.

The rolling mills of the Illinois Steel company, located at South Chicago which were shut down December 31, in order to make extensive repairs in the rail and steel departments, opened today with no decrease in the force of men. This gives work to 6,000 employes who have been idle since the shut down.

IMPORTANT RULING IN A DAMAGE CASE.

Judge Ricks, of the United States district court at Cleveland, has rendered a decision which is of interest to every railroad man. Harry O. Shaven, sued the Pennsylvania company for $25,000 for personal injuries received as a brakeman. He was a member of the Voluntary Relief association of the Pennsylvania company and received benefits from it. A membership involves the waiving of the right to hold the railroad company liable for any injury for which benefit is received. Shaven's attorneys tried to show that this is illegal. Judge Ricks overruled a motion which had that proposition as its basis.

MANUFACTURERS OF BRASS GOODS HAVE A MEETING.

The Manufacturer's Association of Plumbers' Brass goods, which was organized at Pittsburg last month, began its first annual convention in Cleveland today with representatives present from nearly all sections of the country. The association embraces most of the large manufacturing establishments of plumbers' brass goods in the United States. The most important subjects under consideration are the adjustment of prices, revision of lists and freight rates.

EYE PAINFULLY INJURED.

Charles Waldman, of the Pittsburg boiler shop, narrowly escaped losing one of his eyes yesterday. He was struck with a piece of steel, which cut a gash in the eyelid dangerously near the orbit. Mr. Waldman will be off duty some time.

SECRETARY BURNS SURPRISED.

When Secretary J. W. Burns, of the Railroad department of the Y. M. C. A., came home from South Bend yesterday, he found the Ladies' auxiliary active and was informed that they had arranged to entertain the board of managers at the hall last evening. He immediately began to assist in the preparations little dreaming that he and his wife were to be the recipients of a surprise and a testimonial of the esteem in which they are held by the members of this department. When all was ready to entertain the "board of managers," Mr. C. H. New-
